

Cloudera Enterprise Basic (P9A42AAE)

Cloudera Enterprise Basic - Subscription licence (3 years) + 3 Years 8x5 Support - 1 node - electronic - Linux

Cloudera Enterprise helps you become information-driven by leveraging the best of the open source community with the enterprise capabilities you need to succeed with Apache Hadoop in your organization. Designed specifically for mission-critical environments, Cloudera Enterprise includes the world's most popular open source Hadoop-based platform as well as advanced system management tools plus dedicated support and community advocacy from the world-class team of Hadoop developers and experts. Cloudera is your partner on the path to big data. Cloudera Enterprise is designed to function as an enterprise data management platform that can store any amount or type of data, in its original form, for as long as desired or required; integrated with your existing infrastructure and tools; with the flexibility to run a variety of enterprise workloads - including batch processing, interactive SQL, enterprise search and advanced analytics - together with the robust security, governance, data protection, and management that enterprises require. With Cloudera Enterprise, today's leading organizations can put their data at the center of their operations, to increase business visibility and reduce costs, while successfully managing risk and compliance requirements.

Key Selling Points

- Scalable - scale out architecture allows you to grow capacity and performance linearly simply by adding servers
- Flexible storage - store any amount and type of data in its original format, without up-front data modeling
- Flexible computing - diverse tools to get value from data including batch processing, interactive SQL, interactive search, machine learning and statistical computation
- Flexible deployment - deploy your cluster on physical hardware, private clouds or public clouds
- Cost-effective - up to 90% more cost-effective than traditional data management solutions
- Open - take advantage of rapid innovation from a large development community, easily prove the value of the platform to justify your investment; no lock-in
- Integrated - leverage your existing investments for rapid adoption and lower TCO

Main Specifications

Product Description	Cloudera Enterprise Basic - subscription licence (3 years) + 3 Years 8x5 Support - 1 node
Product Type	Subscription licence - 3 years
Category	Networking applications - monitoring & performance management, clustering / high-availability software
Licence Qty	1 node
Bundled Support	3 Years 8x5 Support
Platform	Linux
Distribution Media	Electronic
Service & Support	Technical support

Extended Specification

General

Category	Networking applications - monitoring & performance management, clustering / high-availability software
Product Type	Subscription licence - 3 years
Platform	Linux
Bundled Support	3 Years 8x5 Support
Distribution Media	Electronic

Service & Support

Type	Technical support - 3 years - availability: 8 hours a day / Monday-Friday
------	---

Licencing

Licence Qty	1 node
