

Lenovo Device Manager Professional (4L41Q84098)

Lenovo Device Manager Professional - Subscription licence (1 year) - 1 device - hosted

Purpose-built for Lenovo hardware, LDM helps customers meet one of today's most pressing IT needs - the ability to secure and manage anywhere from tens to thousands of company endpoints. LDM makes it easy to stay on-demand implementation. Teams can also schedule or manually launch software patches from a catalog of about 475 Windows and third-party software applications.

Key Selling Points

- Single pane of glass to monitor your fleet of devices
- Robust device details and health status
- Hardware monitoring of storage, battery, deployment
- Quick deployment of software and add-on services
- Better end-user experience
- Safe, secure platform

Product Features

- Enhance endpoint security
- Automate firmware, drivers, BIOS and software updates across Lenovo Windows devices to reduce vulnerabilities.
- Optimize IT efficiency
- Streamline and simplify IT ops by centrally controlling Lenovo desktops, laptops, tablets, Edge and AR/VR devices.
- Support enterprise mobility
- Support hybrid and remote employees by remotely managing, troubleshooting and deploying critical updates for devices.
- Operate at your scale of business
- Easily manage an increasing number of Lenovo devices with this flexible and scalable solution.
