

Sonicwall SMB Firewalls ADVANCED GATEWAY SECURITY SUITE BUNDLE FOR TZ350 SERIES 1YR (02-SSC-1773)

SonicWall Advanced Gateway Security Suite Bundle for TZ350 Series - Subscription licence (1 year) - for P/N: 02-SSC-0942, 02-SSC-1843

SonicWall Advanced Gateway Security Suite gets you the protection and productivity essentials your network needs.

Key Selling Points

ICSA-certified gateway antivirus and anti-spyware protection
IPS technology
Application intelligence and control
Content Filtering Service (CFS)
Easy upgrade to AGSS

Product Features

ICSA-certified gateway antivirus and anti-spyware protection
ICSA-certified gateway antivirus and anti-spyware protection combines network-based anti-malware with a dynamically updated cloud database containing tens of millions of malware signatures for advanced modern threats continuously in real time. Dynamic spyware protection blocks the installation of malicious spyware and disrupts existing spyware communications.

IPS technology

IPS technology protects against worms, Trojans, software vulnerabilities and other intrusions by scanning all network traffic for malicious or anomalous patterns, thereby increasing network reliability and performance. SonicWall partners with over 50 research agencies and vendors to create IPS signatures for recently discovered vulnerabilities.

Application intelligence and control

Application intelligence and control is a set of granular, application-specific policies providing application classification and policy enforcement to help administrators control and manage both business and non-business related applications.

Content Filtering Service (CFS)

Content Filtering Service (CFS) addresses safety, security and productivity concerns by providing the controls to enforce Internet use policies and block access to harmful and unproductive web content. Website ratings cached locally on SonicWall firewalls make response time to frequently visited sites virtually instantaneous. Dynamically updated rating architecture cross-references all requested websites against a database in the cloud containing millions of URLs, IP addresses and domains and then compares each rating to the local policy setting.

Easy upgrade to AGSS

Advanced Gateway Security Suite (AGSS) includes all the features of CGSS plus Capture Advanced Threat Protection (ATP) cloud-based sandboxing.

Main Specifications

Product Description	SonicWall Advanced Gateway Security Suite Bundle for TZ350 Series - subscription licence (1 year) - 1 licence
Product Type	Subscription licence - 1 year
Category	Online & appliance based services - anti-virus, content filtering, advanced threat detection
Licence Qty	1 licence
Service & Support	New releases update
Designed For	P/N: 02-SSC-0942, 02-SSC-1843

Extended Specification

General

Category	Online & appliance based services - anti-virus, content filtering, advanced threat detection
Product Type	Subscription licence - 1 year

Service & Support

Type	New releases update - 1 year Phone consulting - 1 year - availability: 24 hours a day / Monday-Sunday Web knowledge base access - 1 year URL Database update - 1 year Virus definitions update - 1 year Intrusion definitions update - 1 year Replacement - 1 year
------	--

Compatibility Information

Designed For	P/N: 02-SSC-0942, 02-SSC-1843
