

Logitech Driving Force G29 (941-000113)

Logitech Driving Force G29 - Wheel and pedals set - wired - for Sony PlayStation 3, Sony PlayStation 4

G29 Driving Force is the definitive sim racing hardware for the latest PlayStation 4, PlayStation 3 and PC titles. Feature dual-motor force feedback and helical gearing for quiet, smooth steering. Stainless steel paddle shifters and RPM/Shift indicator LEDs help you make crisp, fluid gear transitions without taking your eyes off the track. The separate pedal unit gives you natural, responsive control with a nonlinear brake pedal. Driving Force is built for comfort and durability with handstitched leather and stainless steel components. Built-in clamps and bolt points allow the wheel to be mounted securely to a table or racing rig, minimizing shifting or wobbling during aggressive maneuvers.

Key Selling Points

- Works with console and PC
- Realistic force feedback with anti-backlash helical gearing
- Easy-access game controls
- Responsive pedal unit
- Quality construction

Product Features

- Dual-motor force feedback
Feel your tires on every turn and type of terrain, sense under- or over-steer drifting and more. Powerful dual-motor force feedback realistically simulates force effects so you can respond with precision.
- Quality construction
Driving Force handles the stress of racing action and is built for long-lasting reliability. G29 has solid steel ball bearings in the wheel shaft and stainless steel paddle shifters and pedals. The race wheel is covered in high-quality, hand-stitched leather, giving it the look and feel of a high-performance racecar wheel and giving you a more comfortable, durable experience.
- Helical gearing with anti-backlash
You get an exceptionally smooth, quiet steering action. Helical gears are modeled after gears used in automotive transmissions to reduce unwanted noise and vibration. Anti-backlash keeps the wheel and pedals tight, maximizing your control. G29 Driving Force Racing Wheel features a long lasting, reliable hall-effect steering sensor, using magnetic fields to sense the position of the wheel.
- Easy-access game controls
All your controls are where you can reach them. The D-Pad, buttons and paddle shifters are incorporated into the racing wheel. LED indicator lights positioned just above the center of the wheel tell you exactly when to up- or down-shift. You maintain maximum acceleration without taking your eyes off the track. A 24-point selection dial and the +/- buttons on the front of the wheel let you further fine-tune your driving preferences.
- Responsive floor pedal unit
Maintain a more realistic driving body position with the separate floor pedal unit with integrated throttle, brake, and clutch pedals. G29 Driving Force lets you comfortably accelerate, brake and change gears with the feel of an actual car. The nonlinear brake pedal mimics the performance of a pressure-sensitive brake system for a more responsive, accurate braking feel. For even finer control, reposition the pedal faces to make heel-toe maneuvers easier to perform. Rubber feet for hard surfaces and a patented retractable carpet grip system help your pedals stay right where you put them.
- 900° steering
The 900-degree lock-to-lock rotation of the G29 Driving Force means you can turn the wheel two and a half times. It's the same degree of motion as a steering wheel inside a car.
- Steering wheel stripe
Easily see if your steering is dialed in using a visual cue within your peripheral vision. The steering wheel stripe is a visual indicator of which direction the wheel is pointing.
- Works with driving force shifter attachment
Complete your racing rig for the most realistic experience. Add the 6-speed manual Driving Force shifter to your racing wheel setup.

Main Specifications

Product Description	Logitech Driving Force G29 - wheel and pedals set - wired
Product Type	Wheel and pedals set
Connectivity Technology	Wired
Localisation	United Kingdom
Manufacturer Warranty	2-year warranty
Designed For	Sony PlayStation 3, Sony PlayStation 4

Extended Specification

General

Product Type	Wheel and pedals set
Connectivity Technology	Wired
Interface	USB

Manufacturer Warranty

Service & Support	Limited warranty - 2 years
-------------------	----------------------------

Miscellaneous

Included Accessories	Power adapter
Localisation	United Kingdom

System Requirements

OS Required	Microsoft Windows 7 / 8 / 8.1
-------------	-------------------------------

Game Controller (1st) Details

Type	Wheel
Controls	Gear shift lever, 24-position adjustment dial
Features	Force feedback, soft rubber grip, status LED, 900° wheel rotation

Game Controller (2nd) Details

Type	Pedals
Features	Auto-calibration, carpet grip system

Compatibility Information

Designed For	Sony PlayStation 3, Sony PlayStation 4
