

Panasonic (FZ-VBRG211U)

Panasonic - Barcode scanner - plug-in module - 2D imager

The Panasonic FZ-VBRG211U is a versatile barcode scanner designed to enhance operational efficiency in various applications. This plug-in module features a compact form factor, making it easy to integrate into existing systems without taking up extra space. With its advanced 2D imager technology, this scanner provides precise and reliable barcode reading, ensuring seamless data capture for improved workflow. Built for durability and performance, the FZ-VBRG211U is ideal for environments where quick and accurate scanning is essential. Its robust design offers a solution that contributes to a streamlined work process. Trust the reliability of the Panasonic FZ-VBRG211U barcode scanner to meet your data capture needs effectively.

Key Selling Points

User-replaceable
1D/2D capable

Product Features

Efficient barcode scanning
The scanner utilizes a 2D imager that enables efficient and accurate scanning of a wide range of barcodes, providing flexibility in various use cases.

Compact plug-in module
Designed as a plug-in module, this scanner allows for seamless integration into existing systems, maximizing space and simplifying deployment.

Main Specifications

Product Description	Panasonic - barcode scanner
Type	Barcode scanner - plug-in module
Scan Element Type	2D imager

Extended Specification

General

Type	Barcode scanner - plug-in module
