

VMware Horizon Enterprise (P9T62A)

VMware Horizon Enterprise - Licence + 5 Years 24x7 Support - 10 concurrent users - OEM

The HPE Client Virtualization with VMware View offers an end-to-end solution based on the best managed and virtualization-ready HPE ProLiant and BladeSystem Servers, HPE Storage, and HPE Thin Client access devices. It is a desktop replacement solution that provides IT teams with the flexibility to quickly deliver and refresh desktops no matter what the device is. You can reduce the business risk associated with potential data loss or theft, and lowers the complexity and cost of desktop management, while continuing to provide end-users with the functionality of a stand-alone desktop.

Key Selling Points

Desktops and applications delivered through a single platform
Optimized for the software-defined data center
Closed-loop management and automation

Product Features

Desktops and applications delivered through a single platform
The HPE Client Virtualization with VMware View delivers virtual or remoted desktops and applications through a single platform to streamline management, easily entitle end users, and quickly deliver Windows desktops and applications to end users across devices and locations. Horizon 6 now supports a single platform for delivering hosted Windows applications and shared desktop sessions from Windows Server instances using Microsoft Remote Desktop Services (RDS), virtual desktops and ThinApp packaged applications.

Optimized for the software-defined data center
The HPE Client Virtualization with VMware View leverages vSphere expertise to deliver desktop and application workloads. Horizon 6 extends the power of virtualization with virtual compute, virtual storage, and virtual networking and security to drive down costs, and enhance the user experience. Horizon 6 now includes support for VMware Virtual SAN. Virtual SAN automates storage provisioning and leverages direct-attached storage resources to drive down storage costs for desktop workloads.

Closed-loop management and automation
The HPE Client Virtualization with VMware View with Horizon 6 allows IT to consolidate control, automate delivery, and protect user compute resources. Supports VMware Mirage 5.0 that delivers a unified image management solution for streamlining management across virtual data centers of both physical and full-clone virtual machines. Provides a cloud pod architecture that allows IT to easily move and locate View pods across data centers and sites. Cloud analytics with VMware vCenter Operations Manager for Horizon provides comprehensive visibility across the desktop environment, allowing IT to optimize the health, availability, performance, and efficiency of desktop services. Cloud orchestration with a VMware vCenter Orchestrator plug-in to allow IT organizations to leverage Orchestrator and VMware vCloud Automation Center for automated provisioning of desktops and applications.

Main Specifications

Product Description	VMware Horizon Enterprise - licence + 5 Years 24x7 Support - 10 concurrent users
Product Type	Licence
Category	Utilities - desktop virtualisation, virtualisation management
Licence Qty	10 concurrent users
Licence Pricing	OEM
Bundled Support	5 Years 24x7 Support
Service & Support	Technical support
