

Red Hat Enterprise Linux for SAP Application (Q5W20AAE)

Red Hat Enterprise Linux for SAP Application - Subscription (3 years) + 3 Years 24x7 Support - 1 licence - ESD

Red Hat Enterprise Linux includes advanced security technologies - from network firewall control to secure containers for application isolation - to prevent intrusions and protect your data.

Key Selling Points

Amazing performance
Platform interoperability made easier

Product Features

Amazing performance
Red Hat Enterprise Linux is ready to run your toughest workloads immediately after installation. Red Hat Enterprise Linux is frequently chosen to run industry benchmarks that showcase leadership in diverse areas like computational scalability, application performance, and database throughput.

Platform interoperability made easier
Compatibility doesn't have to be complicated. Red Hat Enterprise Linux works well with a variety of operating systems. Red Hat Enterprise Linux can also be deployed as a guest operating system across public clouds and supported hypervisors, further extending its flexibility.
