

Microsoft Windows Server 2022 Standard (P73-08423)

Microsoft Windows Server 2022 Standard - Licence - 2 additional cores - OEM - no media/no key, POS - English

Windows Server 2022 introduces advanced multi-layer security, hybrid capabilities with Azure, and a flexible application platform. As part of this release, Microsoft Windows is bringing secured-core capabilities to help protect hardware, firmware, and Windows Server OS capabilities against advanced security threats. Secured-core server builds on technologies such as Windows Defender System Guard and Virtualization-based Security to minimize risk from firmware vulnerabilities and advanced malware. The release also provides secured connectivity that introduces several capabilities such as faster and more secure encrypted HTTPS connections, industry standard SMB AES 256 encryption and more.

Key Selling Points

Advanced security features for comprehensive protection
Integration with Microsoft ecosystems
Stable and reliable performance for business applications
License flexibility to suit various business sizes and needs

Product Features

Enhanced security
Microsoft Windows Server 2022 Standard introduces security measures, designed to protect against evolving threats, ensuring your data and infrastructure are safeguarded.

Seamless integration
This edition offers integration with existing Microsoft ecosystems, facilitating a smooth transition and interoperability with other Microsoft products and services.

Reliable performance
Built on a stable and proven platform, Microsoft Windows Server 2022 Standard delivers performance for critical business applications, supporting your operational needs efficiently.
