

Logitech Rally Mic Pod Hub (939-001647)

Logitech Rally Mic Pod Hub - Microphone interface adapter - for Logitech Rally Mic Pod, Rally, Rally Plus

Provides flexible placement options for three mic pods Reduces cross-table cabling. Connects both mic pods and additional hubs. Place or move mic pods for best performance and easy reach.

Key Selling Points

- Provides flexible placement options for multiple mic pods
- Reduces cross-table cabling
- Connects both mic pods and additional hubs

Product Features

- Any table shape
 - Eliminate the back-and-forth cabling on U-shaped or asymmetrical conference tables and add placement flexibility. With three connections for an array of mic pods, Rally Mic Pod Hub cleans up cabling so you can place mic pods within easy reach of meeting room participants.
- Hidden cabling
 - Eliminate cross-table cabling between mic pods by connecting them through grommets to hubs beneath the table. This keeps audio cabling out of sight for a professional appearance.
- Mic pod mobility
 - Rally Mic Pod Hub lets you connect each mic pod via a single cable. When meeting participants want to move a mic pod to clear table space or to put the mute control within easy reach, they can do so without tugging on neighboring mic pods.
