

Ergotron LX One-Stop Rotational Control Kit mounting component (97-774-003)

Ergotron LX One-Stop Rotational Control Kit - Mounting component (wrench, screws, collar, stop post) - anodized silver - pole mount

This adjustable rotation kit controls the range of motion of the LX arm, so the extension doesn't come in contact with a desk panel or divider.

Key Selling Points

- Stack one or two one-stop rotation kits to adjust the range of motion from 0- to 300-degrees
- Prevents the extension arm(s) from hitting the wall
- Easily attaches to the pole and secured in place with two set screws to prevent stop rotation

Product Features

Effortless adjustment
The Ergotron LX One-Stop Rotational Control Kit includes a collar, screws, stop post, and wrench, enabling effortless adjustment and secure placement on any pole mount. This feature ensures that users can easily customize their setup for optimal viewing and interaction.

Durable construction
Crafted with high-quality materials, the mounting components of the Ergotron LX kit are designed for durability and reliability. Whether for home, office, or commercial environments, this kit provides a sturdy solution for mounting needs.
