

Logitech TV Mount For Video Bars (952-000041)

Logitech TV Mount For Video Bars - Camera mount - under-the-monitor mountable, above-the-monitor mountable - for Logitech Rally Bar All-In-One Video Bar for Midsized Rooms; Room Solution Large

TV Mount for Video Bars saves space and clears the credenza by floating Rally Bar, Rally Bar Mini, or Rally camera above or below the display. Angle and mounting depth adjustments ensure a flush fit. The versatile swing-arm design and industry-standard VESA compatibility work with wall- and cart-mounted displays up to 248.92 cm (98 inches) in size. In rooms where a high mounting position makes sense, the 10° video bar tilt down adapter delivers a room-wide view with the right angle for video meetings. Whether mounted above the display or below, thoughtful routing keeps cables securely connected and out of sight.

Key Selling Points

Flexible above or below the monitor mounting options
Includes 2 mounting plates and fasteners for easy setup

Product Features

Versatile placement options
Designed for flexibility, this camera mount can be placed either above or below the monitor, ensuring optimal positioning for video conferences and presentations.
Comprehensive mounting kit
Comes complete with 2 mounting plates and fasteners, providing everything needed for a secure and straightforward installation process.
