

Cisco (CSF1200C-PWR-AC=)

Cisco - Power supply - AC 100-240 V

The Cisco CSF1200C-PWR-AC power supply is designed to provide reliable performance for network hardware. It operates efficiently with a voltage range of AC 100-240 V and supports both 50 Hz and 60 Hz frequencies, making it adaptable to various power environments. Its external form factor enhances installation flexibility, ensuring that it can be used in a variety of settings while maintaining optimal power delivery.

Key Selling Points

- Operates with AC 100-240 V for compatibility
- Supports 50/60 Hz frequency for use in various environments
- External form factor for installation flexibility
- Compatible with network hardware for integration

Product Features

- Reliable performance**  
This power supply provides consistent and stable power to ensure that network hardware operates smoothly, reducing the risk of downtime.
- Versatile power range**  
With an input voltage range of AC 100-240 V, this device accommodates various installation environments, suitable for different locations and applications.
- Flexible frequency support**  
Supporting both 50 Hz and 60 Hz, this power supply can be used globally, providing convenience in diverse operational settings.
- Easy external installation**  
The external form factor allows for straightforward installation, enabling quick setup and maintenance without compromising performance.

Main specifications

|                       |                         |
|-----------------------|-------------------------|
| Product Description   | Cisco - power supply    |
| Device Type           | Power supply - external |
| Input Voltage         | AC 100-240 V            |
| Manufacturer Warranty | 90 days warranty        |

Extended specification

General

|             |                         |
|-------------|-------------------------|
| Device Type | Power supply - external |
|-------------|-------------------------|

Manufacturer Warranty

|                   |                                                                   |
|-------------------|-------------------------------------------------------------------|
| Service & Support | Limited warranty - replacement - 90 days - response time: 10 days |
|-------------------|-------------------------------------------------------------------|

Power Device

|                    |              |
|--------------------|--------------|
| Input Voltage      | AC 100-240 V |
| Frequency Required | 50/60 Hz     |
