

DEDICATED TO THE MISSION OF **QUALITY**

NCFI is proud to have contributed to every space shuttle mission. Our journey doesn't end there! We're thrilled to be selected as the supplier of foam insulation for NASA's Artemis missions, supporting the space launch system rocket and Orion spacecraft.

ABOUT OUR COMPANY

For over 60 years, NCFI has been dedicated to producing high-quality foams. We are proud to be part of Barnhardt Manufacturing Company, which is nearing 125 years in business! This enduring success reflects our commitment to excellence in both product quality and customer service.

INNOVATION & SUPPORT

Everyone understands that the quality of products depends on the talent of those who visualize, develop, manufacture, and deliver them. With over sixty years in business, we have cultivated a rich “brain trust.” Our technical and production team brings over 500 years of combined experience in polyurethanes. You can be confident that your needs will be met—and surpassed—by a team committed to delighting our customers.
