

SEASIDE CELLARS

PROFILE

Pinot Noir is predominantly grown in the cooler southerly regions. The huge diversity in climates and soils enables a wide range of styles from the five main Pinot producing regions. A mixture of soils and microclimates ensure a balance of flavor profiles and outstanding quality.

APPELLATION

Marlborough New Zealand

TROPHIES

Wine Spectator (USA): 90 points

SPECIFICITIES

Alcohol: 12.5%
Total Acidity: 3.8g/L
