Web3 Developer with 5+ years of experience in Solidity and software development. Skilled in building decentralized applications, smart contracts, and blockchain integration. Passionate about leveraging Web3 technologies to create innovative and secure solutions. Proven track record of delivering high-quality projects on time.

WORK EXPERIENCE

DabbleLab — Full-Stack Developer
Web
US, Florida (Remote) | NOV 2022 - PRESENT

- Collaborated with product teams to define the development of LLMS on RPC blockchain network.
- Developed front-end and back-end components for web applications, ensuring seamless integration with blockchain technology.
- Worked on generative AI projects, enhancing the AI's ability to generate accurate and relevant responses.

FreeBeings.io — Web3 Frontend Developer
LinkedIn | Web
Mauritius | SEPT 2022 - MAY 2023

- Smart contract Integration with Hive Blockchain.
- Developed and deployed smart contracts on the Ethereum blockchain using Solidity.
- Worked on full-stack development projects, integrating blockchain with front-end and back-end systems.

Blockchain Tech Solution (startup) — Blockchain Developer
LinkedIn
Rwanda | June 2022 - Jan 2023

- Built and maintained decentralized applications on Ethereum with Solidity mostly and Solana using Rust(not much) Worked on projects like DAO, Flashloans and Coins Swap.
- Participated in front-end and back-end development, enhancing user experiences and optimizing performance.

Andela — Software Developer
Web
Rwanda, Kigali | SEP 2020 - FEB 2022

- Developed and maintained scalable web applications using modern front-end and back-end technologies.
- Utilized JavaScript, TypeScript, React, Node.js, and Express to build robust, high-performance applications.
- Implemented CI/CD pipelines using Jenkins, GitLab CI, and GitHub Actions to streamline development and deployment processes
- Participated in daily stand-ups, sprint planning, and retrospectives as part of an Agile development team.

Truefeedback — Junior Software Developer
Web
Turkey (Remote) | May 2019 - Apr 2021

- Designed and implemented smart contracts for various blockchain-based projects(Wallet, Lottery, and NFT marktplace).
- Collaborated with other developers to integrate blockchain solutions with existing systems.
- Data streaming libraries.

EDUCATION
University Of Rwanda (College of Science and Technology)
Bachelor's Degree in Software Engineering, 2018 - 2022

TECHNOLOGIES

Stack
Solidity,Javascript, TypeScript, NextJs, ReactJS, NodeJS, GraphQL, Tailwindcss,Prisma

Other
Truffle, MongoDB, PostgreSQL, AWS (EC2, Amplify), Heroku, REST API, Supabase, Firebase, Cloud functions, JIRA, Nginx, Java/Sprintboot, Cloudflare, CircleCI, RESTful API, web3.

AWARDS

Hackathon Mentor (2023)
Been a mentor at the Cybersecurity and Blockchain Hackathon

Google African Developer program (2023) Attended this program leveraging on google offered courses.

RCA Curriculum Review (2022) Attended Rwanda Coding Academy Curriculum Review for Software development at Rwanda Coding Academy(RCA).

LANGUAGES

English, fluent
French, Good
Kinyarwanda, Native
