

Stone Cold Love

Five different characters, one love: We are **Stone Cold Love**. We play rock with a clear edge – with rough guitar riffs, driving drums and lyrics with dark nuances.

We write songs that combine elements from various rock genres. You can clearly hear classic rock, punk and post-punk, and much more. In the end we create our own thing from these influences.

'We' are Sebi (dr), Basti (git), Conny (voc) Alex (b), and Rod (git) from Magdeburg, Germany. Since we played our first show in 2020 we can't stop to play concerts, organize events ourselves. We won the audience award of the SWM Talentverstärker band contest in 2022 - and we are working on new stuff. We released our debut EP I - a diy project from start to finish. We spend whole nights and days in our rehearsal room - driven by our passion for music.

Now we're about to enter the stage with our songs! Stone Cold Love stands for wild shows, for rough sounds and we always give 100% - whether as support or headliner!

We love rock music.

To One, To All - For Rock'N'Roll
