

Stone Cold Love

Yes, another band claiming they want to change the world. But we truly mean it! The stage is our world, and the people who celebrate with us become a part of that world.

We are Stone Cold Love. Our signature sound: Gritty guitar riffs, driving drums, thumping basslines, and soulful lyrics with dark undertones. We invite you to follow us through the various facets of our rock music and our unique soundscape.

"We" consist of Sebi (dr), Basti (git), Conny (voc), Alex (b), and Rod (git). We have been performing together on stages nationwide since 2020. Currently, we are in the studio recording our upcoming EP, *II*, with a release set for 2026!

We want to play for you! We are ready to give it our all—whether as a support act or a headliner.

We love Rock. To One, To All - For Rock'N'Roll
