# Who we are?

Flowmax Water- An ISO 9001:2015 certified comprehensive total water solution provider

Established in 2008, we have a strong history of social commitment. We looked around and saw a lack of clean and safe water. We wanted to do something different and affordable for our own people.

Unlike our competitors, we do not sell standard water treatment plants. We design need based solutions that are versatile and performance oriented which cater to all kinds of requirements of households, offices, industrial/commercial/business sectors, water supply schemes, standalone community water treatment plants, etc...

## Our widely recognized Projects!

- 🔥 Over **1000** successful installations in public and private sectors.
- 🔥 **96** Stand alone "Arsenic Treatment Plants" (Solar based arsenic removal plants) for PHE (Public Health Engineering) - Assam
- 🔥 **150** projects all over Kerala, under world banks community water supply and sanitation scheme.
- 🔥 Over **500** well recharge projects in Uzhavoor block Panchayath - Kerala
- 🔥 Kerala's First, fully automatic remote monitored water ATM - Alappuzha
