

# Say Goodbye to Paid Promotions - Today Free TikTok Followers & Likes 2025 (Boost Guide)

[LAST UPDATED: June 21, 2025]

As you know, not all of the TikTok Followers are free to choose within the low tiers, but if you haven't unlocked an item that comes up, feel free to generate a new set or just one single item by clicking on it. And keep making that victory royales until you own every single one of them or until you have earned enough V-bucks to purchase the one you love.

Sometimes you get bored of always playing with the same character, and the same good old equipment you chose long ago. If that's the case, this tool is especially designed for you! The tool gives you the opportunity to edit your loadout without even giving it one single thought.

TikTok Followers explanation

There are a lot of different items available within TikTok Followers. All items do belong to one of the following six categories. The background color of the square will change based on the rarity of the generated item.

Random TikTok Followers

The first square in the random generator will show you a TikTok Followers outfit, such as 'Dark priestess Naomi', 'Shadowbird', 'Slurp Jonesy' or even 'Holly Striker' and 'Aloy'. There are quite a lot of them, and most of them are really awesome.

Random TikTok Followers

A glider is the tool you use after making the jump out of the party bus. The second square in the random generator will show you the TikTok Followers you can use, a few examples of them are: 'Fennec’s ship', 'Wolf kissed longboat', 'First order tie fighter' and 'Batglider'.

Random TikTok Followers back bling

The back bling (back pack) is just a cosmetic item within TikTok Followers. There will be no benefit from it, besides that it looks cool when it's on the back of your character. You can really make a big entrance while carrying the 'Sweet spikes', ‘Wavepiercer' or the 'Dark paradigm'. You will find your random back bling in the third square.

Random TikTok Followers pickaxe

Pickaxes are used as a harvesting tool. You can demolish all different materials and you can use it against your enemies when you're out of ammo. Not only does the pickaxe look very cool while taking down an entire building wall by wall, it also does finish your character's looks. Some of the axes like 'Spider snare', 'Mello mallets', 'Zen axe' or 'Stun rod' are very rare or even legendary, but therefore are some of the best looking axes in the game. Your pickaxe will show up in the fourth square after generating the items.
