

MANIFEST

Introducing a Sustainable,
Earth-Friendly Fulfillment Solution.

Manifest enables retailers to run high-powered logistics in a sustainable, socially responsible way.

- Efficient Warehouse Management
- Sustainability as a Service
- High-Accuracy, Pick & Pack Services
- Value Added Services, Subscription
- Carbon Offset Partnership
- Biodegradable Packaging Materials
- ZERO PLASTICS

PARTNERS & GREEN PROMISE

Working Together Towards a Greener Planet

In 2020, total e-commerce packaging waste reached 295 million tons, 60% of which was non-recyclable plastics. Through strategic climate action partnerships, Manifest is on a co-driven mission to clean up supply chain logistics. Working in direct alignment with the United Nations sustainable development goals, we are committed to "Leading the Movement Toward a Greener Supply Chain."

SUSTAINABLE DEVELOPMENT GOALS

We are committed to doing our part to move towards Net Zero by 2050

OUR PROCESS

Sustainability as a Service
Fulfillment, Re-imagined.

STEP 1

MANUFACTURING

Manifest works with global merchants who source and procure their merchandise sustainably.

STEP 2

WAREHOUSE MANAGEMENT

Once inventory is received, merchandise is securely warehoused and technology integrations are connected to your store.

STEP 3

FULFILLMENT

Manifest fulfills orders directly from your store's back-end, then picks, packs, and ships using zero plastics.

STEP 4

DELIVERY

Your customer's orders are delivered through green partnerships and carbon-neutral solutions.
