

HAMMAD

Full Stack & React Native Developer

Karachi, Sindh, Pakistan | +92 331 3123345 | khatrihammad911@gmail.com | <https://hammad-dev-seven.vercel.app/>

SUMMARY

Full Stack and React Native Developer with hands-on experience building responsive, scalable web and mobile applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), React Native, and Next.js. Focused on writing clean, performant code and delivering strong user experiences across multiple personal and professional projects.

SKILLS

Frontend: React.js, React Native, Next.js, JavaScript, HTML, CSS

Backend & Databases: Node.js, Express.js, Socket.io, MongoDB, MySQL, RESTful APIs

EXPERIENCE

MERN Stack Developer — Tecxeo Pvt Limited

2025 – Present

- Develop and maintain full-stack web applications using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Build and integrate RESTful APIs to support front-end features and application data flow.
- Collaborate with team members on responsive, user-focused interface design and performance improvements.

Full Stack Development Intern — CodeAlpha

May 2025

- Assisted in developing full-stack web applications using React.js, Node.js, and related MERN technologies.
- Contributed to front-end and back-end development tasks under the guidance of senior developers.

Full Stack Web Intern — YoungDev Interns

April 2025

- Supported full-stack web development tasks using JavaScript, React.js, and Node.js.
- Practiced building and debugging web application features in a collaborative team environment.

PROJECTS

Food — Fast-food delivery app connecting users to local restaurants, with real-time order tracking, secure payments, and streamlined checkout.

ChatDock — Secure web messaging platform that unifies conversations across devices with strong encryption and a clean, organized interface.

KenroX — AI-powered fitness platform generating personalized workout and diet plans based on user goals, body stats, and lifestyle.

LinkInsights — Full-stack URL shortening and analytics platform for creating shortened links and tracking click performance with detailed insights.

MealMind.ai — Full-stack AI-powered recipe generator that creates smart, creative recipe ideas, with options to save, share, and download recipes.

LuxuryStay Hospitality — Hotel management system that streamlines operations, improves staff coordination, and enhances the guest experience through automation.
