Durango, Dgo. Mexico

BIO

Software engineer who thrives on the pursuit of knowledge and the exploration of emerging technologies. Committed to both personal and professional development. Taking a proactive and quality-driven approach to project development. Skilled in front-end development, leadership in projects and agile methodologies and skilled at solving problems and quick to adapt in various situations through clear communication.

Languages:

- English (B2 - iTEP Plus)
- Spanish (Native)

EXPERIENCE

May 2023 - April 2024

Talentum Space I San Francisco, Ca. United States

Front-end Developer

Worked on the Gekocards project using Next.js with TypeScript to generate AI-driven images for unique event invitations. Tasks included:

- Form creation with Formik and Yup.
- Managing cookies.
- Implementing drag-and-drop image functionality.
- Ensuring UI/UX and responsive design.

During the professional internship at Talentum using React, Sass, JavaScript, and Postman for endpoint testing and I contributed by:

- Creating components and screens.
- Connecting endpoints for a new educational platform.

The platform helps Mexicans prepare for job interviews.

September 2022 - April 2023

Work Nest I Durango, Dgo. Mexico

Front-end Developer & Project Manager

Participated in the refactoring of the "CAJA" system for Mexican municipalities, involving tasks like:

- Angular Framework and system training.
- Teamwork with idea contributions.
- Redesigning views for better UI/UX.

In the second role, focused on administrative duties such as:

- Organizing documentation.
- Creating test templates.
- Coordinating progress with developers.
