

CHARGER PRO 2

11 / 22 kW

BEV-3012-0000

IP65 Protection Class · Full Protection · QR Code · RFID · WIFI · Display · OCPP 1.6J · GSM

MOBILE APP FEATURES

Remote on/off access, scheduling and charging history tracking.
Note: Available on models with Wi-Fi capability.

CHARGER PLUS 2

11 / 22 kW

BEV-2012-0000

IP66 Protection Class · Full Protection · QR Code · RFID · WIFI · OCPP 1.6J

AUTO CHARGE RESTART

INNOVATION

When power is restored after an outage, the device charging devices. automatically retries every 3 minutes to restart charging.

CHARGER 2

11 / 22 kW

BEV-1011-0005

IP65 Protection Class · Full Protection · WIFI · RFID · Display

SAFETY FEATURES

- Overcurrent protection,
- Over/undervoltage protection,
- Leakage current protection,
- Overtemperature protection,
- IP66 (LED) / IP65 (display) protection rating,
- Fault warning
- Highimpact resistant housing

MINI MOBILE

2,3 / 3,7 kW

BEV-1111-0001

PRO MOBILE

11 / 22 kW

BEV-2331-0001

IP65 Protection Class · Full Protection · WIFI · RFID · Display

AUTO CHARGE RESTART

INNOVATION

When power is restered after an outage, the device charging devices. automatically retries every 3 minutes to restart charging.

MONO MOBILE

3,7 / 7,4 kW

BEV-1221-0001

Carry your power wherever you go!
Charge your vehicle easily anywhere with mobile
When power is restored after an outage,
the device charging devices.

PRODUCT SPECS

AC Output Power	2,3 kW	3,7 kW	7,4 kW	11 kW	22 kW
Phase	Monophase			Threephase	
Usage Type	Mobile				
Protection Class	IP66			IP65	
Voltage Range	200/250 V AC			380/415 V AC	
Max. Current	16A / 32A				
Operating Temp.	-30°C / +55°C				
Housing Material	PA6 %30GF				
Cable Length	5 Meter				
Cable Type	Type 2				

SAFETY FEATURES

- Overcurrent protection,
- Over/undervoltage protection,
- Leakage current protection,
- Overtemperature protection,
- IP66 (LED) / IP65 (display) protection rating,
- Fault warning
- Highimpact resistant housing

E-V CHARGE

DC Fast Charging Systems

40 / 80 kW DC
Fast Charging System

Powerful, Smart, Safe.
Together, we are moving toward an electric future.

Plug & Play and Remote Management
Plug-and-play installation and remote management application for fast commissioning and easy control.

Load Balancing
Intelligently distributes available power between vehicles for safe, uninterrupted charging.

RFID NFC Card & Contactless Payment
Enables charging with an individual card. For CPOs, supports convenient contactless payment via credit/debit card, RFID, mobile payment or NFC.

OCPP Support
Operates integrated with existing infrastructures through OCPP support.
