To Augmented World Expo Attendees and Exhibitors:

The Santa Clara Convention Center is looking forward to another year of hosting the Augmented World Expo. We feel honored to welcome back such an amazing group of creative innovators to the heart of Silicon Valley.

The Santa Clara Convention Center is aware of the recent concerns surrounding confirmed cases of Coronavirus near Santa Clara County. At this time, the county of Santa Clara Public Health Department has stressed that “risk to the general public remains low”. In the meantime, we recommend that all attendees at the convention center practice good hygiene since this is the peak of Flu season. Please wash your hands, use a tissue or sneeze into your sleeve or arm when sneezing or coughing, and use your best judgment when you are not feeling well. There are several hand sanitizers located throughout our building and bathrooms are equipped with anti-bacterial soap. If you so choose, you may bring a face mask to wear at the convention center. Thank you for your cooperation.

How the Santa Clara Convention Center is Preparing for AWE

In light of recent world events, the Santa Clara Convention Center is working diligently to reduce the potential risk of spreading any illness in the building. Outside of daily efforts to maintain a safe and healthy environment for all attendees, we are adding extra precautions to daily procedures. We are providing updates on the home page of our website from the Santa Clara County Public Health Department and the City of Santa Clara.

- As a part of our day to day cleanliness we are also increasing our frequency of monitoring bathrooms to make sure they are equipped with antibacterial soap and warm water.
- We have placed hand sanitizing stations throughout the building to encourage more frequent antibacterial efforts.
- Continued and increased cleaning and sanitization of common areas and frequently touched high traffic areas in the building: light switches, door handles, bathrooms, handrails, water fountains etc.
- Reinforcing our policies for employees and attendees, if you are feeling ill please stay home and monitor your condition and seek a healthcare professional if your condition does not improve.

We will continue to follow proper cleanliness measures and do our best to provide you with new and pertinent information as we receive it. Thank you for choosing the Santa Clara Convention Center, where *Your Vision Is Our Mission.*
