ABOUT ME

A motivated Computer Science and Engineering graduate with a solid background in programming, algorithms, and software development. Problem-solving abilities and a strong desire to create efficient, scalable solutions are essential. I'm eager to contribute to unique initiatives, work with teams, and advance in the technology field.

DIGITAL SKILLS

Good Knowledge of Microsoft Office: Word, Excel, PowerPoint | programming: Python, MATLAB and SQL | Programming Languages - C,C++,Java,HTML and MS SQL server | Programmazione C++ (procedurale OOP) | Machine Learning •

PROJECTS

2024

● **Signature Verification System**

This project focuses on a Signature Verification System that employs machine learning to authenticate signatures on bank checks, official documents, and forms. It uses a dynamic approach to record real-time data, such as pen speed and pressure, to ensure precise verification. Signatures are analyzed and compared using machine learning techniques, which ensures that real or faked signatures can be identified. The technology seeks to improve security and efficiency while verifying signatures across different applications.

THESIS

2024

● **A Predictive Assessment of Mental Health in Graduates Using Machine Learning Approaches**

Supervised By:

Meskat Jahan

Assistant Professor

Department of Computer Science and Engineering

Comilla University

Cumilla-3506, Bangladesh

LANGUAGE SKILLS

MOTHER TONGUE(S): Bengali

Other language(s):

English

Listening B2

Spoken production B2

Reading B2

Spoken interaction B2

Writing B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
