Project: Multimedia Annotation & Captioning  
(Springboard — Client: Amazon)  
Duration: November 24 — January 31, 25

Worked on a multimedia annotation project for Amazon as part of the Springboard team, ensuring accurate and high-quality data labeling for various media formats. Responsibilities included:

Image Captioning: Created precise and contextually appropriate descriptions for images to improve content categorization and accessibility.

Audio Annotation: Transcribed and annotated audio files, ensuring clarity and correctness for data processing and analysis.

Video Captioning: Developed detailed captions for video content, enhancing usability and accessibility.

Maintained consistency and accuracy while adhering to project guidelines and deadlines, contributing to efficient data processing and content management.
