Tell our experts about your business

Managing customer communications has never been more important. Customers’ expectations are growing exponentially and being there for them 24/7 is becoming the new market standard.

Let us do the heavy lifting while you focus on the most important part of business - your clients.

To launch LiveChat effortlessly, our experts will:

- Configure it with you
- Onboard your agents and admins
- Assist you with the go-live
- Be there to address every question your team may have afterward.

A short time to value and superb ROI have never been easier to achieve.

The most comprehensive implementation on the market

- Strategy session to decide on the game plan
- ChatBot building
- Cooperative product setup session
- Live or async go-live assistance
- Monthly post-go-live checkup
- Onboarding (agents, admins, reporting)
- Industry-based practices session
- Technical assistance
- Weekly post-go-live checkup

Packages start from $4000
Don’t settle for a one-size-fits-all solution

Use our expertise in particular use cases, like sales, support, or ecommerce, or tell us more about how you’d like to use LiveChat

Partner with us to:

- Improve your CSAT to 90%+ positive
- Achieve full value within 2-4 weeks from the kickoff
- Boost your conversion rates up to 11x
- Reduce stress and streamline the performance of your team

“\nThe LiveChat Professional Services Team was simply amazing from the start. Their Professional Services suggestions were exactly what we needed to implement, deploy, train, and go live.

All in all a seamless experience. Their team was extremely accountable. Within the first year of using Help Desk & LiveChat, we have scaled from a small group to a robust team that includes Onboarding, Customer Success, and Billing, and we also pulled in our Sales team to collaborate in the platforms. I know the Professional Service team will be there to support GETIDA."

Greg Ghia, CRO at GETIDA

You will be in a good company
