- **Certified for joining the problem-solving competitive programming, ECPC** 2022
- **Certified for completing the programming tour, 180 Daraga** 2021

LANGUAGES

- **Arabic** – Native
- **English** – Advanced
- **German** – Beginner

ACHIEVEMENTS

- **Inspired Person:** I inspired junior developers to follow my lead in the web development track and encouraged them to take the first step as early as possible.
- **Very Good GPA:** I completed the four years with a total GPA of 3.01 which is Very good.
- **Project from scratch:** I am happy that I can create a full project from scratch until the last phase in the software development life cycle (SDLC).

LATEST PROJECTS

- **Airbnb Clone:** with all the functionality that the real website provides like all authentication process, reserve a place or search for place upon your requirements.
 - [View on GitHub](#)
- **Amazon Clone:** with the ability to Signing, add to cart, and Search for product, until the checkout process.
 - [View on GitHub](#)
- **Movix:** website allows you to explore a tune of movies and TV-series and search for specific movie and see all the details related to it like the movie details and genres, cast, and trailers using the biggest Movie API TMDB.
 - [View on GitHub](#)

- **Blog website with CMS:** is a blog website with CMS (Content Management System) using JAMStack that allows you to add, edit, and delete posts with an admin dashboard.
 - [View on GitHub](#)
- **Budget App:** with the ability to save your budget and your expenses to keep up with your expense's details and with appealing user interface and a user-friendly website.
