# RECENT PROJECTS AND ENGAGEMENTS

## Enhancing Security and Surveillance for Lagos Metro Rail Project:

Lagos Metro Rail is a key infrastructure project to not just improve mobility but to create Safety of passengers and assets.

As with any project, we encountered our fair share of challenges, including:

- ◇ Extensive metro infrastructure
- ◇ High passenger volumes
- ◇ Diverse security requirements, encompassing physical security, cybersecurity, and video surveillance

To address these challenges, we implemented comprehensive video surveillance systems, advanced access control mechanisms, robust cybersecurity measures, and established a central monitoring center for real-time response.

As a result of our solutions, we achieved enhanced

passenger safety, protection of critical infrastructure, a significant reduction in security incidents, and more efficient operations.

Our outcome was the delivery of cutting-edge, effective security and surveillance system, which ensured the safety, security, and integrity of the new metro system.

## Seminar:

We conducted a seminar for the Lagos Metropolitan Area Transport Authority (LAMATA). A 3-day seminar, with a primary focus on the fundamentals of railway surveillance, specifically tailored for the recently inaugurated Blue Railway.
