Services to Help You Support The Internet of Things

Product Kitting BENEFITS

- Package materials together to save time
- Reduce administrative costs
- Reduce internal labor costs
- Avoid delays, all items ship together

JIT (Just in Time) BENEFITS

- Have materials delivered when and where they are needed
- Material staging to keep products close to the project
- Reduce the amount of inventory, storage costs and inventory obsolescence
- On-time performance

Technical Assistance SERVICES

- Specialized resources to help you evaluate, plan and develop solutions
- Technical appraisal
- Training
- Integration suggestions
- Process improvement
- Opportunity walks

Project Order Management BENEFITS

- Let us worry about the details
- Increased ability to plan projects
- Active management of project
- Increased confidence in on-time project completion

Graybar Mobile App INSTANT PRODUCT ACCESS

The Graybar Mobile App is your on-the-go solution for placing, tracking and managing product orders.

Graybar SmartStock® BENEFITS

- For those who would rather count profits than parts
- Streamlined replenishment process
- Less down time
- Reduced shrinkage
- Lowers labor costs

Graybar Financial Services® BENEFITS

- Overcome budget constraints
- Conserve working capital and preserve credit lines
- Take advantage of available tax benefits

Material Staging BENEFITS

- Helps ensure one complete shipment
- Readily accessible inventory
- Reduces material losses, material damages, labor costs and supplier claims
- Promotes JIT inventory

Graybar, a Fortune 500 corporation and one of the largest employee-owned companies in North America, is a leader in the distribution of high quality electrical, communications and networking products, and specializes in related supply chain management and logistics services.

Graybar has the power and stability of a big company and the integrity and drive of an employee-owned business. Graybar is certified against the latest ISO 9000 standard.

Discover how Graybar can work to your advantage.
