Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ **QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2015

or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 000-00255

GRAYBAR ELECTRIC COMPANY, INC.

(Exact name of registrant as specified in its charter)

New York

(State or other jurisdiction of incorporation or organization)

13-0794380

(I.R.S. Employer Identification No.)

34 North Meramec Avenue, St. Louis, Missouri

(Address of principal executive offices)

63105

(Zip Code)

(314) 573 - 9200

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES ☒ NO ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for shorter period that the registrant was required to submit and post such files).

YES ☒ NO ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer ☒ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

YES ☐ NO ☒

Common Stock Outstanding at July 31, 2015: 15,930,742

Graybar Electric Company, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
(Stated in thousands, except share and per share data)
(Unaudited)

1. DESCRIPTION OF THE BUSINESS

Graybar Electric Company, Inc. ("Graybar", "Company", "we", "our", or "us") is a New York corporation, incorporated in 1925. We are engaged in the distribution of electrical and communications and data networking products, and are a provider of related supply chain management and logistics services. We primarily serve customers in the construction, and commercial, institutional and government ("CIG"), as well as the industrial and utility vertical markets, with products and services that support new construction, infrastructure updates, building renovation, facility maintenance, repair and operations ("MRO"), and original equipment manufacturers ("OEM"). All products sold by us are purchased by us from others, and we neither manufacture nor contract to manufacture any products that we sell. Our business activity is primarily with customers in the United States ("U.S."). We also have subsidiary operations with distribution facilities in Canada and Puerto Rico.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Our accounting policies conform to generally accepted accounting principles in the U.S. ("GAAP") and are applied on a consistent basis among all years presented. Significant accounting policies are described below.

Basis of Presentation

The unaudited condensed consolidated financial statements included herein have been prepared by Graybar pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "Commission") applicable to interim financial reporting. Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations, although we believe that our disclosures are adequate to make the information presented not misleading. The preparation of financial statements in accordance with GAAP requires the use of estimates and assumptions that affect reported amounts. Our condensed consolidated financial statements include amounts that are based on management's best estimates and judgments. Actual results could differ from those estimates. Certain reclassifications were made to prior year amounts to conform to the 2015 presentation. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations as of and for the year ended December 31, 2014, included in our latest Annual Report on Form 10-K.

In the opinion of management, this quarterly report includes all adjustments, consisting of normal recurring accruals and adjustments, necessary for the fair presentation of the financial statements presented. Results for interim periods are not necessarily indicative of results to be expected for the full year.

Principles of Consolidation

The consolidated financial statements include the accounts of Graybar and its subsidiary companies. All material intercompany balances and transactions have been eliminated. The ownership interests that are held by owners other than the Company in subsidiaries consolidated by the Company are accounted for and reported as noncontrolling interests.

Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Subsequent Events

We have evaluated subsequent events through the time of the filing of this Quarterly Report on Form 10-Q with the Commission. No material subsequent events have occurred since June 30, 2015 that require recognition or disclosure in these financial statements.

Revenue Recognition

Revenue is recognized when evidence of a customer arrangement exists, prices are fixed and determinable, product title, ownership and risk of loss transfers to the customer, and collectability is reasonably assured. Revenues recognized are primarily for product sales, but also include freight and handling charges. Our standard shipping terms are FOB shipping point, under which product title passes to the customer at the time of shipment. We also earn revenue for services provided to customers for supply chain management and logistics services. Service revenue is recognized when services are rendered and completed. Revenue is reported net of all taxes assessed by governmental authorities as a result of revenue-producing transactions, primarily sales tax.

Outgoing Freight Expenses

We record certain outgoing freight expenses as a component of selling, general and administrative expenses.

Cash and Cash Equivalents

We account for cash on hand, deposits in banks, and other short-term, highly liquid investments with an original maturity of three months or less as cash and cash equivalents.

Allowance for Doubtful Accounts

We perform ongoing credit evaluations of our customers, and a significant portion of our trade receivables is secured by mechanic's lien or payment bond rights. We maintain allowances to reflect the expected uncollectability of trade receivables based on past collection history and specific risks identified in the receivables portfolio. Although actual credit losses have historically been within management's expectations, additional allowances may be required if the financial condition of our customers were to deteriorate.

Merchandise Inventory

Our inventory is stated at the lower of cost (determined using the last-in, first-out ("LIFO") cost method) or market. LIFO accounting is a method of accounting that, compared with other inventory accounting methods, generally provides better matching of current costs with current sales.

We make provisions for obsolete or excess inventories as necessary to reflect reductions in inventory value.

Vendor Allowances

Our agreements with many of our suppliers provide for us to earn volume incentives based on purchases during the agreement period. Based on the provisions of our vendor agreements, we develop vendor accrual rates by estimating the point at which we will have completed our performance under the agreement and the deferred amounts will be earned. We perform analyses and review historical trends to ensure the deferred amounts earned are appropriately recorded. Certain vendor agreements contain purchase volume incentives that provide for increased funding when graduated purchase volumes are met. Amounts accrued throughout the year are based on estimates of future activity levels, and could be materially impacted if actual purchase volumes differ. Changes in the estimated amount of incentives are treated as changes in estimate and are recognized in earnings in the period in which the change in estimate occurs. In the event that the operating performance of our suppliers were to decline, however, there can be no assurance that amounts earned would be paid or that the volume incentives would continue to be included in future agreements.

Property and Depreciation

Property, plant and equipment are recorded at cost. Depreciation is expensed on a straight-line basis over the estimated useful lives of the related assets. Interest costs incurred to finance expenditures for major long-term construction projects are capitalized as part of the asset's historical cost and included in property, plant and equipment, then depreciated over the useful life of the asset. Leasehold improvements are amortized over the term of the lease or the estimated useful life of the improvement, whichever is shorter. Expenditures for maintenance and repairs are charged to expense when incurred, while the costs of significant improvements, which extend the useful life of the underlying asset, are capitalized.

Credit Risk

Financial instruments that potentially expose us to concentrations of credit risk consist primarily of trade receivables. We perform ongoing credit evaluations of our customers, and a significant portion of our trade receivables may be protected by mechanic's lien or payment bond rights. We maintain allowances for potential credit losses and such losses historically have been within management's expectations.

Fair Value

We endeavor to utilize the best available information in measuring fair value. GAAP has established a fair value hierarchy, which prioritizes the inputs used in measuring fair value. The tiers in the hierarchy include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs for which little or no market data exists, therefore requiring an entity to develop its own data inputs and assumptions. We have used fair value measurements to value our pension plan assets.

Foreign Currency Exchange Rate

The functional currency for our Canadian subsidiary is the Canadian dollar. Accordingly, its balance sheet amounts are translated at the exchange rates in effect at the end of each reporting period and its statements of income amounts are translated at the average rates of exchange prevailing during the current period. Currency translation adjustments are included in accumulated other comprehensive loss.

Goodwill

Our goodwill is not amortized, but rather tested annually for impairment. Goodwill is reviewed annually in the fourth quarter and/or when circumstances or other events might indicate that impairment may have occurred. We first perform a qualitative assessment of goodwill impairment. The qualitative assessment considers several factors including the excess fair value over carrying value as of the last quantitative impairment test, the length of time since the last fair value measurement, the current carrying value, market conditions, actual performance compared to forecasted performance, and the current business outlook. If the qualitative assessment indicates that it is more likely than not that goodwill is impaired, the reporting unit is quantitatively tested for impairment. If a quantitative assessment is required, the fair value is determined using a variety of assumptions including estimated future cash flows of the reporting unit and applicable discount rates.

Income Taxes

We recognize deferred tax assets and liabilities to reflect the future tax consequences of events that have been recognized in the financial statements or tax returns. Uncertainty exists regarding tax positions taken in previously filed tax returns still subject to examination and positions expected to be taken in future returns. A deferred tax asset or liability results from the temporary difference between an item's carrying value as reflected in the financial statements and its tax basis, and is calculated using enacted applicable tax rates. We assess the likelihood that our deferred tax assets will be recovered from future taxable income and, to the extent we believe that recovery is not likely, a valuation allowance is established. Changes in the valuation allowance, when recorded, are included in the provision for income taxes in the consolidated financial statements. We classify interest expense and penalties as part of our provision for income taxes based upon applicable federal and state interest/underpayment percentages.

Other Postretirement Benefits

We account for postretirement benefits other than pensions by accruing the costs of benefits to be provided over the employees' periods of active service. These costs are determined on an actuarial basis. Our consolidated balance sheets reflect the funded status of postretirement benefits.

Pension Plan

We sponsor a noncontributory defined benefit pension plan accounted for by accruing the cost to provide the benefits over the employees' periods of active service. These costs are determined on an actuarial basis. Our consolidated balance sheets reflect the funded status of the defined benefit pension plan.

New Accounting Standards

No new accounting standards that were issued or became effective during 2015 have had or are expected to have a material impact on our consolidated financial statements except those noted below:

In April 2015, Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU" or "Update") 2015-05, "Intangibles-Goodwill and Other-Internal-use Software: Customer's Accounting for Fees Paid in a Cloud Computing Arrangement". This Update provides guidance about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract and expensed as services are received. The Update is effective for fiscal years beginning after December 15, 2015 and interim periods. We are currently evaluating the impact of adopting this Update on our consolidated financial statements.

In February 2015, FASB issued ASU 2015-02, "Consolidation". The amendments in this Update affect reporting entities that are required to evaluate whether they should consolidate certain legal entities. All legal entities are subject to reevaluation under the revised consolidation model. This ASU is effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015. We do not expect the adoption of this Update to have a material impact on the our results of operations, financial position, or cash flows.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers", which provides guidance on a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance, including industry-specific guidance. In July 2015, the FASB deferred the effective date of the Update for one year. The Update will now be effective for public business entities for annual reporting periods, including interim reporting periods, beginning after December 15, 2017.

The new standard provides for two alternative implementation methods. The first is to apply the new standard retrospectively to each prior reporting period presented. This method allows the use of certain practical expedients. The second method is to apply the new standard retrospectively in the year of initial adoption and record a cumulative effect adjustment for the impact of adjusting contracts open at the date of adoption. Under this transition method, we would apply this guidance retrospectively only to contracts that are not completed contracts at the date of initial application, which for us will be January 1, 2018. We would then recognize the cumulative effect of initially applying the standard as an adjustment to the opening balance of retained earnings. This method also requires us to disclose comparative information for the year of adoption.

We continue to determine which method we will use to implement the new standard and to assess the impact the new standard is expected to have on the consolidated financial statements or on other matters or aspects of our business.

3. INCOME TAXES

We determine our deferred tax assets and liabilities based upon the difference between the financial statement and tax bases of our assets and liabilities, calculated using enacted applicable tax rates. We then assess the likelihood that our deferred tax assets will be recovered from future taxable income and, to the extent we believe that recovery is not likely, we establish a valuation allowance. Changes in the valuation allowance, when recorded, are included in the provision for income taxes in the condensed consolidated financial statements.

We classify interest expense and penalties as part of our provision for income taxes based upon applicable federal and state interest/underpayment percentages. We have accrued \$1,108 and \$1,065 in interest and penalties at June 30, 2015 and December 31, 2014, respectively. Interest was computed on the difference between the provision for income taxes recognized in accordance with GAAP and the amount of benefit previously taken or expected to be taken in our federal, state, and local income tax returns.

Our federal income tax returns for the tax years 2011 and forward are available for examination by the United States Internal Revenue Service ("IRS"). The statute of limitation for the 2011 federal return will expire on September 15, 2015, unless extended by consent. Our state income tax returns for 2010 through 2014 remain subject to examination by various state authorities with the latest period closing on December 31, 2019. We have not extended the statutes of limitations in any state jurisdictions with respect to years prior to 2010.

Our unrecognized tax benefits of \$3,337 and \$3,104 at June 30, 2015 and December 31, 2014, respectively, are uncertain tax positions that would impact our effective tax rate if recognized. We are periodically engaged in tax return examinations,

reviews of statute of limitations periods, and settlements surrounding income taxes. We do not anticipate a material change in unrecognized tax benefits during the next twelve months.

4. CAPITAL STOCK

Our common stock is 100% owned by active and retired employees, and there is no public trading market for our common stock. Since 1928, substantially all of the issued and outstanding shares of common stock have been held of record by voting trustees under successive voting trust agreements. Under applicable New York law, a voting trust may not have a term greater than ten years. At June 30, 2015, approximately 83% of the common stock was held in a voting trust that expires by its terms on March 15, 2017. The participation of shareholders in the voting trust is voluntary at the time the voting trust is created, but is irrevocable during its term. Shareholders who elect not to participate in the voting trust hold their common stock as shareholders of record.

No holder of our common stock or voting trust interests representing our common stock ("common stock", "common shares", or "shares") may sell, transfer or otherwise dispose of any shares without first offering us the option to purchase those shares at the price at which they were issued. Additionally, a shareholder is entitled to any cash dividends, if any, accrued for the quarter in which the purchase offer is made, adjusted pro rata for the number of days such shares were held prior to the dividend record date. We also have the option to purchase at the issue price the common shares of any shareholder who ceases to be an employee for any reason other than death or retirement on a pension (except a deferred pension), and on the first anniversary of any holder's death. In the past, we have always exercised these purchase options and we expect to continue to do so in the foreseeable future. However, we can make no assurance that we will continue to exercise our purchase option in the future. All outstanding shares of the Company have been issued at \$20.00 per share.

Cash dividends declared were \$4,801 and \$4,756 for the three months ended June 30, 2015 and 2014, respectively. Cash dividends declared were \$9,616 and \$9,548 for the six months ended June 30, 2015 and 2014, respectively.

5. DEBT

Revolving Credit Facility

At June 30, 2015 and December 31, 2014, we along with Graybar Canada Limited, our Canadian operating subsidiary ("Graybar Canada"), had an unsecured, five-year, \$550,000 revolving credit agreement maturing in June 2019 with Bank of America, N.A. and the other lenders named therein (the "Credit Agreement"), which includes a combined letter of credit sub-facility of up to \$50,000, a U.S. swing line loan facility of up to \$50,000, and a Canadian swing line loan facility of up to \$20,000. The Credit Agreement includes a \$100,000 sublimit (in U.S. or Canadian dollars) for borrowings by Graybar Canada and contains an accordion feature, which allows us to request increases to the aggregate borrowing commitments of up to \$300,000.

The Credit Agreement contains customary affirmative and negative covenants for credit facilities of this type, including limitations on us and our subsidiaries with respect to indebtedness, liens, changes in the nature of our business, investments, mergers and acquisitions, issuance of equity securities, dispositions of assets and dissolution of certain subsidiaries, transactions with affiliates, restricted payments (subject to incurrence tests, with certain exceptions), as well as securitizations, factoring transactions, and transactions with sanctioned parties or in violation of certain U.S. or Canadian anti-corruption laws. There are also maximum leverage ratio and minimum interest coverage ratio financial covenants that we are subject to during the term of the Credit Agreement. We were in compliance with all these covenants as of June 30, 2015 and December 31, 2014.

We had total letters of credit of \$5,690 and \$5,725 outstanding, of which none were issued under the Credit Agreement at June 30, 2015 and December 31, 2014. The letters of credit are used primarily to support certain workers' compensation insurance policies.

There were \$184,188 and \$66,342 in short-term borrowings outstanding under the Credit Agreement at June 30, 2015 and December 31, 2014, respectively.

Short-term borrowings outstanding during the six months ended June 30, 2015 and 2014 ranged from a minimum of \$35,981 and \$31,089 to a maximum of \$184,188 and \$111,912, respectively.

At June 30, 2015, we had unused lines of credit under the Credit Agreement amounting to \$365,812 available, compared to \$483,658 at December 31, 2014. These lines are available to meet our short-term cash requirements and are subject to annual fees of up to 40 basis points (0.40%).

Private Placement Shelf Agreement

At June 30, 2015 and December 31, 2014, we had an uncommitted \$100,000 private placement shelf agreement with Prudential Investment Management, Inc. (the "Shelf Agreement"). The Shelf Agreement allows us to issue senior promissory notes to affiliates of Prudential at fixed rate terms to be agreed upon at the time of any issuance during a three year issuance period ending in September 2017. No notes had been issued under the Shelf Agreement as of June 30, 2015 and December 31, 2014.

The Shelf Agreement contains various affirmative and negative covenants. We are also required to maintain certain financial ratios as defined in the agreement. We were in compliance with all covenants as of June 30, 2015 and December 31, 2014.

6. PENSION AND OTHER POSTRETIREMENT BENEFITS

We have a noncontributory defined benefit pension plan covering substantially all employees first hired prior to July 1, 2015 after the completion of one year of service and 1,000 hours of service. The plan provides retirement benefits based on an employee's average earnings and years of service. These employees become 100% vested after three years of service, regardless of age. A supplemental benefit plan provides nonqualified benefits for compensation in excess of the IRS compensation limits applicable to the plan.

Our plan funding policy is to make contributions, provided that the total annual contributions will not be less than ERISA and the Pension Protection Act of 2006 minimums or greater than the maximum tax-deductible amount, to review the contribution and funding strategy on a regular basis, and to allow discretionary contributions to be made by us from time to time. The assets of the defined benefit pension plan are invested primarily in fixed income investments and equity securities. We pay nonqualified pension benefits when they are due according to the terms of the supplemental benefit plan.

We provide certain postretirement health care and life insurance benefits to retired employees. Substantially all of our employees hired or rehired prior to 2014 may become eligible for postretirement medical benefits if they reach the age and service requirements of the retiree medical plan and retire on a service pension under the defined benefit pension plan. Medical benefits are self-insured and claims are paid through an insurance company. The cost of coverage is determined based on the annual projected plan costs. The participant's premium or cost is determined based on Company guidelines. Postretirement life insurance benefits are insured through an insurance company. We fund postretirement benefits as incurred, and accordingly, there were no assets held in the postretirement benefits plan at June 30, 2015 and December 31, 2014.

The net periodic benefit cost for the three and six months ended June 30, 2015 and 2014 included the following components:

Components of Net Periodic Benefit Cost	Pension Benefits		Postretirement Benefits	
	Three Months Ended June 30,		Three Months Ended June 30,	
	2015	2014	2015	2014
Service cost	\$ 6,304	\$ 5,506	\$ 577	\$ 602
Interest cost	6,251	6,610	713	843
Expected return on plan assets	(7,123)	(6,637)	—	—
Amortization of:				
Net actuarial loss	5,090	4,285	271	359
Prior service cost (gain)	113	230	(545)	(540)
Net periodic benefit cost	\$ 10,635	\$ 9,994	\$ 1,016	\$ 1,264

Components of Net Periodic Benefit Cost	Pension Benefits		Postretirement Benefits	
	Six Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
Service cost	\$ 12,804	\$ 11,103	\$ 1,252	\$ 1,227
Interest cost	12,601	13,409	1,463	1,668
Expected return on plan assets	(14,148)	(13,312)	—	—
Amortization of:				
Net actuarial loss	10,014	8,819	522	634
Prior service cost (gain)	226	476	(1,090)	(1,090)
Settlement loss	—	789	—	—
Net periodic benefit cost	\$ 21,497	\$ 21,284	\$ 2,147	\$ 2,439

A settlement loss that resulted from lump sum pension distributions was recorded during the six months ended June 30, 2014.

We made qualified and nonqualified pension contributions totaling \$10,002 during the three-month periods ended June 30, 2015 and 2014, respectively. Contributions made during the six-month periods ended June 30, 2015 and 2014 totaled \$21,534 and \$22,862, respectively. Additional contributions totaling \$20,003 are expected to be paid during the remainder of 2015.

7. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following table represents amounts reclassified from accumulated other comprehensive income (loss) for the three months ended June 30, 2015 and 2014:

	Three Months Ended June 30, 2015			Three Months Ended June 30, 2014

8. ASSETS HELD FOR SALE

We consider properties to be assets held for sale when all of the following criteria are met: (i) a formal commitment to a plan to sell a property has been made and exercised; (ii) the property is available for sale in its present condition; (iii) actions required to complete the sale of the property have been initiated; (iv) sale of the property is probable and we expect the sale will occur within one year; and (v) the property is being actively marketed for sale at a price that is reasonable given its current market value.

Upon designation as an asset held for sale, we record the carrying value of each property at the lower of its carrying value or its estimated fair value, less estimated costs to sell, and depreciation of the property ceases. The net book value of assets held for sale was \$7,669 at December 31, 2014. During the three and six months ended June 30, 2015, we sold assets classified as held for sale with net book values of \$44 and \$4,669, respectively, and recorded net gains on the assets held for sale of \$611 and \$4,195, respectively, in other income, net. The remaining net book value of assets still held for sale at June 30, 2015 is \$3,000 and is recorded in net property in the condensed consolidated balance sheets.

We review long-lived assets held and used for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. For assets classified as held and used, impairment may occur if projected undiscounted cash flows are not adequate to cover the carrying value of the assets. In such cases, additional analysis is conducted to determine the amount of the loss to be recognized. The impairment loss is calculated as the difference between the carrying amount of the asset and its estimated fair value. The analysis requires estimates of the amount and timing of projected cash flows and, where applicable, selection of an appropriate discount rate. Such estimates are critical in determining whether any impairment charge should be recorded and the amount of such charge if an impairment loss is deemed necessary.

For assets held for sale, impairment occurs whenever the net book value of the property listed for sale exceeds the expected selling price less estimated selling expenses. There were no impairment charges recorded during the three and six month periods ended June 30, 2015 and 2014.

9. COMMITMENTS AND CONTINGENCIES

Graybar and our subsidiaries are subject to various claims, disputes, and administrative and legal matters incidental to our past and current business activities. As a result, contingencies may arise resulting from an existing condition, situation, or set of circumstances involving an uncertainty as to the realization of a possible loss.

We account for loss contingencies in accordance with GAAP. Estimated loss contingencies are accrued only if the loss is probable and the amount of the loss can be reasonably estimated. With respect to a particular loss contingency, it may be probable that a loss has occurred but the estimate of the loss is a wide range. If we deem an amount within the range to be a better estimate than any other amount within the range, that amount will be accrued. However, if no amount within the range is a better estimate than any other amount, the minimum amount of the range is accrued. While we believe that none of these claims, disputes, administrative, and legal matters will have a material adverse effect on our financial position, these matters are uncertain and we cannot at this time determine whether the financial impact, if any, of these matters will be material to our results of operations in the period during which such matters are resolved or a better estimate becomes available.

10. ACQUISITION

In April 2015, we acquired 100% of the outstanding capital stock of Advantage Industrial Automation, Inc. ("AIA"), which provides control and automation solutions to industrial users, original equipment manufacturers (OEMs) and system integrators, for \$18,302 in cash net of cash acquired. The purchase price allocation resulted in approximately \$7,057 and \$8,283 of tax deductible goodwill and other intangible assets, respectively.

Since the date of acquisition, the AIA results are reflected in our Condensed Consolidated Financial Statements. Pro forma results of this acquisition were not material; therefore, they are not presented.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with our accompanying unaudited condensed consolidated financial statements and notes thereto, and our audited consolidated financial statements, notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations as of and for the year ended December 31, 2014, included in our Annual Report on Form 10-K for such period as filed with the United States Securities and Exchange Commission (the "Commission"). The results shown herein are not necessarily indicative of the results to be expected in any future periods.

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (the "PSLRA"), Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words "believes", "projects", "expects", "anticipates", "estimates", "intends", "strategy", "plan", "may", "will", "would", "will be", "will continue", "will likely result", and other similar expressions. We intend such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the PSLRA. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties that may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse impact on our operations and future prospects on a consolidated basis include, but are not limited to: general economic conditions, particularly in the residential, commercial, and industrial building construction industries; cyber-attacks; volatility in the prices of industrial commodities; disruptions in our sources of supply; a sustained interruption in the operation of our information systems; increased funding requirements and expenses related to our pension plan; compliance with increasing governmental regulations; adverse legal proceedings or other claims; and the inability, or limitations on our ability, to raise debt or equity capital or to borrow under our existing credit facilities or any replacements thereof. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, unless otherwise required by applicable securities law. Further information concerning our business, including additional factors that could materially impact our financial results, is included herein and in our other filings with the Commission. Actual results and the timing of events could differ materially from the forward-looking statements as a result of certain factors, a number of which are outlined in Item 1A., "Risk Factors", of our Annual Report on Form 10-K for the year ended December 31, 2014.

All dollar amounts, except per share data, are stated in thousands (\$000s) in the following discussion and accompanying tables.

Background

Graybar Electric Company, Inc. ("Graybar", "Company", "we", "our", or "us") is a New York corporation, incorporated in 1925. We are engaged in the distribution of electrical and communications and data networking products, and are a provider of related supply chain management and logistics services. We primarily serve customers in the construction, and commercial, institutional and government ("CIG"), as well as the industrial and utility vertical markets, with products and services that support new construction, infrastructure updates, building renovation, facility maintenance, repair and operations ("MRO"), and original equipment manufacturers ("OEM"). All products sold by us are purchased by us from others, and we neither manufacture nor contract to manufacture any products we sell. Our business activity is primarily with customers in the United States ("U.S."). We also have subsidiary operations with distribution facilities in Canada and Puerto Rico.

Our common stock is 100% owned by active and retired employees, and there is no public trading market for our common stock. No holder of our common stock or voting trust interest representing our common stock ("common stock", "common shares", or "shares") may sell, transfer, or otherwise dispose of any shares without first offering us the option to purchase those shares at the price at which they were issued. Additionally, a shareholder is entitled to any cash dividends, if any, accrued for the quarter in which the purchase offer is made, adjusted pro rata for the number of days such shares were held prior to the dividend record date. We also have the option to purchase at the issue price the common shares of any shareholder who ceases to be an employee for any reason other than death or retirement on a pension (except a deferred pension), and on the first anniversary of any holder's death. In the past, we have always exercised these purchase options and we expect to continue to do so in the foreseeable future. However, we can make no assurance that we will continue to exercise our purchase option in the future. All outstanding shares of the Company have been issued at \$20.00 per share.

Business Overview

Following record net sales in the first quarter, we established a second quarter net sales record of \$1,570,008. Year-to-date June 30, 2015 net sales were \$2,963,786, which was also a record for the Company. Sales in our construction, CIG, and industrial and utility vertical markets grew during the quarter and year-to-date. Contributing to this growth in sales are our investments in new locations, sales force expansion, and additional e-commerce capabilities.

Our orders on hand continue to improve as we continue our focus on profitable growth. We plan to continue reaching both new and underserved customers by developing our sales organization, by opening new locations and through the use of acquisitions. We are also expanding our e-commerce capabilities through the introduction of a new mobile platform to enhance the customer experience. We believe these initiatives will augment our existing network of locations and capabilities, positioning us well for increased market share during the remainder of 2015. We are, however, seeing signs that the general economy may be slowing in the second half of the year.

Consolidated Results of Operations

The following tables set forth certain information relating to our operations stated in thousands of dollars and as a percentage of net sales for the three and six months ended June 30, 2015 and 2014:

	Three Months Ended June 30, 2015		Three Months Ended June 30, 2014

Three Months Ended June 30, 2015 Compared to Three Months Ended June 30, 2014

Net sales totaled \$1,570,008 for the quarter ended June 30, 2015, compared to \$1,517,375 for the quarter ended June 30, 2014, an increase of \$52,633, or 3.5%. Net sales in our construction, CIG, and industrial and utility vertical markets increased for the three months ended June 30, 2015 compared to the same three-month period of 2014 by 4.9%, 9.4%, and 0.2%, respectively.

Gross margin increased \$11,403, or 4.0%, to \$293,345 from \$281,942 primarily due to our focus on gross margin rate improvement initiatives as well as increased net sales in the second quarter of 2015, compared to the same period of 2014. Our gross margin as a percent of net sales totaled 18.7% for the three months ended June 30, 2015, up from 18.6% for the three months ended June 30, 2014.

Selling, general and administrative expenses increased \$15,960, or 7.1%, to \$240,909 in the second quarter of 2015 from \$224,949 in the second quarter of 2014, due primarily to higher compensation related expenses associated with our salesforce expansion initiative and normal compensation increases for our existing workforce for the three months ended June 30, 2015. Selling, general and administrative expenses as a percentage of net sales totaled 15.3% for the three months ended June 30, 2015, up from 14.8% for the three months ended June 30, 2014.

Depreciation and amortization expenses for the three months ended June 30, 2015 increased \$1,136, or 11.7%, to \$10,813 from \$9,677 in the second quarter of 2014 due to an increase in property, at cost. Depreciation and amortization expenses as a percentage of net sales totaled 0.7% for the three months ended June 30, 2015, up from 0.6% for the same period of 2014.

Income before provision for income taxes totaled \$42,143 for the three months ended June 30, 2015, a decrease of \$6,234, or 12.9%, from \$48,377 for the three months ended June 30, 2014. The decrease was generated primarily by increases in selling, general, and administrative expenses and depreciation and amortization expenses, partially offset by an increase in gross margin.

Our total provision for income taxes decreased \$2,272, or 11.8%, to \$16,998 for the three months ended June 30, 2015, compared to \$19,270 for the same period of 2014. Our effective tax rate was 40.3% for the three months ended June 30, 2015, compared to 39.8% for the same period of 2014. The increase in the effective tax rate was attributable to changes in anticipated pretax income. The effective tax rate for the three months ended June 30, 2015 was higher than the 35.0% U.S. federal statutory rate primarily due to state and local income taxes.

Net income attributable to Graybar Electric Company, Inc. for the three months ended June 30, 2015 decreased \$3,956, or 13.6%, to \$25,088 from \$29,044 for the three months ended June 30, 2014.

Six Months Ended June 30, 2015 Compared to Six Months Ended June 30, 2014

Net sales totaled \$2,963,786 for the six-month period ended June 30, 2015, compared to \$2,830,175 for the six-month period ended June 30, 2014, an increase of \$133,611, or 4.7%. Net sales in our construction, CIG, and industrial and utility vertical markets increased for the six months ended June 30, 2015 compared to the same six-month period of 2014 by 4.9%, 8.9%, and 4.6%, respectively.

Gross margin increased \$20,972, or 3.9%, to \$552,371 from \$531,399 primarily due to increased net sales in the first six months of 2015, compared to the same period of 2014. Our gross margin as a percent of net sales decreased to 18.6% for the six months ended June 30, 2015 from 18.8% for the same period of 2014, primarily due to changes in our business mix.

Selling, general and administrative expenses increased \$28,102, or 6.3%, to \$472,976, for the six-month period ended June 30, 2015, compared to \$444,874 for the six-month period ended June 30, 2014, due primarily to higher compensation related expenses associated with our salesforce expansion initiative and normal compensation increases for our existing workforce for the six months ended June 30, 2015. Selling, general and administrative expenses as a percentage of net sales totaled 16.0% for the six months ended June 30, 2015, up from 15.7% for the same period of 2014.

Depreciation and amortization expenses for the six months ended June 30, 2015 increased \$1,768, or 9.1%, to \$21,122 from \$19,354 for the same six-month period in 2014 due to an increase in property, at cost. Depreciation and amortization expenses as a percentage of net sales remained constant at 0.7% for the six months ended June 30, 2015 and 2014.

Other income, net totaled \$5,559 for the six-month period ended June 30, 2015, compared to \$2,158 for the six months ended June 30, 2014. Other income, net consists primarily of gains on the disposal of property, trade receivable interest charges to customers, and other miscellaneous income items related to our business activities. The increase in other income, net for the six months ended June 30, 2015 compared to the same six-month period in 2014 was primarily due to increases in net gains on the disposal of real and personal property of \$4,127.

Income before provision for income taxes totaled \$62,622 for the six months ended June 30, 2015, a decrease of \$5,949, or 8.7%, from \$68,571 for the six months ended June 30, 2014. The decrease was generated primarily by increases in selling, general and administrative expenses and depreciation and amortization expenses, partially offset by increases in gross margin and other income, net.

Our total provision for income taxes decreased \$3,131, or 11.1%, to \$24,983 for the six months ended June 30, 2015, compared to \$28,114 for the same period in 2014. Our year-to-date effective tax rate was 39.9% for the six months ended June 30, 2015, compared to 41.0% for the same period in 2014. The decrease in the effective tax rate was attributable to U.S. Internal Revenue Service ("IRS") audit-related contingencies that were recorded during the six months ended June 30, 2014 that did not repeat during the six months ended June 30, 2015. The effective tax rate for the six months ended June 30, 2015 was higher than the 35.0% U.S. federal statutory rate primarily due to state and local income taxes, while the effective tax rate for six months ended June 30, 2014 was higher due to the IRS audit and state and local income taxes.

Net income attributable to Graybar Electric Company, Inc. for the six-month period ended June 30, 2015 decreased \$2,817, or 7.0%, to \$37,548 from \$40,365 for the six months ended June 30, 2014.

Financial Condition and Liquidity

We manage our liquidity and capital levels so that we have the capacity to invest in the growth of our business, meet debt service obligations, finance anticipated capital expenditures, make benefit payments, fund acquisitions, make dividend payments, finance information technology needs, and finance other miscellaneous cash outlays. We believe that maintaining a strong company financial condition enables us to competitively access multiple financing channels, maintain an optimal cost of capital and enable our company to invest in strategic long-term growth plans.

We have historically funded our working capital requirements using cash flows generated by the collection of trade receivables and trade accounts payable terms with our suppliers, supplemented by short-term bank lines of credit. Capital expenditures have been financed primarily by cash from working capital management, short-term bank lines of credit and long-term debt.

Cash and cash equivalents were \$38,538 at June 30, 2015, compared to \$33,758 at December 31, 2014, an increase of \$4,780, or 14.2%. Our short term borrowings increased significantly during the period to \$184,188 at June 30, 2015 from \$66,342, in part, because we have strategically invested in expanding our service offering by adding new locations, expanding our sales force, and through an acquisition. In addition, current assets exceeded current liabilities by \$431,416 at June 30, 2015, a decrease of \$15,134, or 3.4%, from \$446,550 at December 31, 2014.

Operating Activities

Cash flows from operations for the six months ended June 30, 2015 declined by \$97,318 when compared to the six months ended June 30, 2014 primarily due to increasing inventory levels during the six months ended June 30, 2015 to support our expected growth of sales during 2015, as well as an increase in trade receivables and a decrease in accrued payroll benefits, partially offset by an increase in trade accounts payable.

Merchandise inventory turnover decreased modestly for the six months ended June 30, 2015, compared to the six months ended June 30, 2014, as a result of increased merchandise inventory levels partially offset by higher sales volume at June 30, 2015 compared to June 30, 2014. The average number of days of sales in trade receivables for the six-month period ended June 30, 2015 increased moderately compared to the same six-month period ended June 30, 2014 primarily as a result of the increase in sales.

Investing Activities

Net cash used by investing activities increased \$41,358 for the six months ended June 30, 2015 when compared to the six months ended June 30, 2014. In the first quarter of 2015, we purchased a new regional distribution center in southern California for \$23,392, while disposing of a regional distribution center in northern California that had been classified as an

asset held for sale and provided proceeds of \$8,214. During the second quarter of 2015, we acquired Advantage Industrial Automation, Inc. for \$18,302, net of cash acquired. For further discussion of the acquisition, refer to Note 10, "Acquisition", of the notes to the condensed consolidated financial statements.

Financing Activities

Cash flows from financing activities increased by \$128,082 for six months ended June 30, 2015, compared to the six months ended June 30, 2014 primarily due to the increase in our short term borrowings to fund our operating and investing activities.

Liquidity

We had a \$550,000 revolving credit facility with \$365,812 in available capacity at June 30, 2015, compared to \$483,658 at December 31, 2014. At June 30, 2015 and December 31, 2014, we also had an uncommitted \$100,000 private placement shelf agreement that allows us to issue senior promissory notes to affiliates of Prudential at fixed rate terms to be agreed upon at the time of any issuance during a three year issuance period ending in September 2017. No notes had been issued under the shelf agreement as of June 30, 2015 and December 31, 2014. For further discussion related to our revolving credit facility and our private placement shelf agreement, refer to Note 5, "Debt", of the notes to the condensed consolidated financial statements located in Item 1.

We had total letters of credit of \$5,690 and \$5,725 outstanding, of which none were issued under the \$550,000 revolving credit facility at June 30, 2015 and December 31, 2014. The letters of credit are used primarily to support certain workers' compensation insurance policies.

New Accounting Standards Updates

Our adoption of new accounting standards are discussed in Note 2, "Summary of Significant Accounting Policies", of the notes to the condensed consolidated financial statements located in Item 1., "Financial Statements", of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes in the policies, procedures, controls, or risk profile from those provided in Item 7A., "Quantitative and Qualitative Disclosures About Market Risk", of our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures

An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of June 30, 2015, was performed under the supervision and with the participation of management. Based on that evaluation, our management, including the Principal Executive Officer and Principal Financial Officer, concluded that our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) Changes in internal control over financial reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use Of Proceeds.

Our common stock is 100% owned by active and retired employees, and there is no public trading market for our common stock. Since 1928, substantially all of the issued and outstanding shares of common stock have been held of record by voting trustees under successive voting trust agreements. Under applicable New York law, a voting trust may not have a term greater than ten years. The 2007 Voting Trust Agreement expires by its terms on March 15, 2017. At June 30, 2015, approximately 83% of the common stock was held in this voting trust. The participation of shareholders in the voting trust is voluntary at the time the voting trust is created, but is irrevocable during its term. Shareholders who elect not to participate in the voting trust hold their common stock as shareholders of record.

No holder of our common stock or voting trust interests representing our common stock ("common stock", "common shares", or "shares") may sell, transfer, or otherwise dispose of any shares without first offering us the option to purchase those shares at the price at which they were issued. Additionally, a shareholder is entitled to any cash dividends, if any, accrued for the quarter in which the purchase offer is made, adjusted pro rata for the number of days such shares were held prior to the dividend record date. We also have the option to purchase at the issue price the common shares of any shareholder who ceases to be an employee for any cause other than death or retirement on a pension (except a deferred pension), and on the first anniversary of any holder's death. In the past, we have always exercised these purchase options, and we expect to continue to do so in the foreseeable future. However, we can make no assurance that we will continue to exercise our purchase option in the future. All outstanding shares of the Company have been issued at \$20.00 per share.

The following table sets forth information regarding purchases of common stock by the Company, all of which were made pursuant to the foregoing provisions:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs
April 1 to April 30, 2015	70,391	\$20.00	N/A
May 1 to May 31, 2015	63,644	\$20.00	N/A
June 1 to June 30, 2015	81,745	\$20.00	N/A
Total	215,780	\$20.00	N/A

CERTIFICATION

I, Kathleen M. Mazzarella, certify that:

- 1) I have reviewed this Quarterly Report on Form 10-Q of Graybar Electric Company, Inc.;
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4) The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
