

Graybar.com

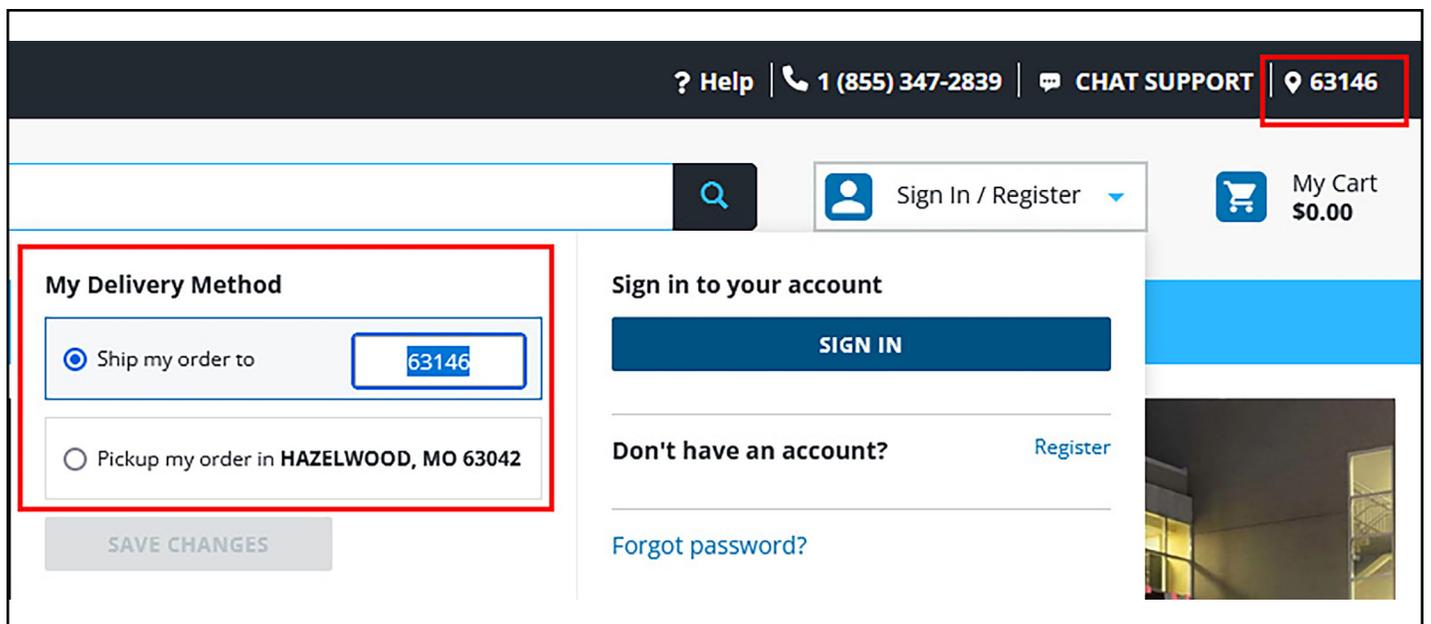

Search and Find a Product

To efficiently find what you are looking for on Graybar.com, utilize the Search Feature. Maximize your search experience using your location, delivery settings, and filtering features.

Get started by signing into your Graybar.com account or allowing your browser access to your current location.

Please note, to keep your Graybar.com account secure, you will be asked to sign in again if you have left the site or have been idle for 30 minutes.

If you are searching for a product without logging in to your Graybar.com account, make sure your delivery zip code in the top right-hand corner of the screen is correct. This helps us show you products that are in stock at the closest branch near you.

The screenshot shows the Graybar.com website interface. At the top right, there is a navigation bar with links for Help, a phone number (1 (855) 347-2839), CHAT SUPPORT, and a location pin icon next to the zip code 63146. Below this is a search bar and a Sign In / Register dropdown menu. On the right side, there is a shopping cart icon labeled 'My Cart \$0.00'. The main content area is divided into two sections. The left section, titled 'My Delivery Method', is highlighted with a red box and contains two radio button options: 'Ship my order to' with a text input field containing '63146', and 'Pickup my order in HAZELWOOD, MO 63042'. A 'SAVE CHANGES' button is located below these options. The right section, titled 'Sign in to your account', features a prominent blue 'SIGN IN' button, a link for 'Don't have an account? Register', and a link for 'Forgot password?'. A small image of a building is visible in the bottom right corner of the screenshot.

Set Your Ship-To Address

If you are registered with a Graybar.com account, sign in using your email and password. Graybar.com will automatically filter to locally stocked items based on the Ship-to account you have selected. If you would like your order to ship somewhere other than the Ship-to you have selected, change it before you start your search.

Broad vs Specific Searches

Graybar.com search can distinguish between broad and specific searches. For instance, if you type “Lamps,” you will notice a large variety of products ranging from LED, fluorescent, and incandescent lamps in your search results. Refine that search with “LED Lamps,” and you will notice a smaller set of LED lamp products. Refine your search term once more by typing in “T5 LED Lamps.” This allows you to be more specific, cutting irrelevant products out of your search results.

Slang Terms

Graybar.com search understands industry slang terms. Type the word “biscuit” and you will notice results for Surface Mount Boxes. This functionality helps populate results to relevant products based on the industry slang term.

Content Searches

Graybar.com's search engine can retrieve different content pages depending on your search term. For instance, type in “Careers” or “About Us” and you will be redirected to the corresponding page to learn more about the specific term.

Auto Correct

Graybar.com's search engine will correct a misspelled search term. Type in "Yillow Tape" and you will notice the spelling is corrected to "Yellow Tape," and yellow tape products will show in the search results.

Check "Stocked to Ship" or "Stocked at Branch" based on your selected delivery method.

- If you are a customer who is eligible for Graybar truck shipping, filter to "Stocked at Branch" for best results.
- If you normally receive Graybar products via other shipping methods, select "Stocked to Ship." This narrows the search results to items that are in stock at your aligned Graybar Service Center or Zone Distribution Center.
- Unchecking the boxes will show you more items that may not be available locally.
