

# CHADDY® FLIP. NEST. STACK.

## Features + Ergonomic Adjustments

### FLEX BACK

Back tilts 7° to recline for maximum comfort.

### FLIP NEST SEAT

The seat easily flips up allowing multiple chairs to be nested together for efficient storage. The seat features a beveled front contour for added comfort and ease of nesting.

### STACKING

Chairs can stack up to 4 high for increased storage flexibility.

### MESH

Translucent, cross-woven 100% nylon mesh back allows daylight and ventilation to pass through. This breathable mesh keeps users cool and supported while creating an airy aesthetic.

### FLIP ARMS

Arms lower and raise 90° to provide support and easy access.

### TABLET ARM OPTION

Available in left or right options, tablet arm rotates 90° vertically and horizontally for ease of use. Tablet arm is black and tablet top is black laminate.

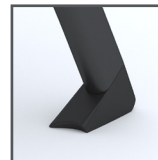

### CASTERS

On mobile units, the casters allow users to move the chair easily.

### GLIDES

On static units, the glides on the back two legs feature a small caster that allows the user to pivot/lean back and roll the unit without lifting.

### ANSI/BIFMA ACCEPTANCE

Meets the ANSI/BIFMA X5.4-2020 Public and Lounge Seating and approved by the American National Standards Institute (ANSI).
