

CLARETTE GANGING ASSEMBLY

THE GANGING STRAP CONSISTS OF A "FIGURE 8" SHAPE WITH VELCRO ON BOTH SIDES OF ONE END. IT ATTACHES TO THE STEM OF THE GLIDES USED ON THE CLARETTE SEATS AND OTTOMANS.

NOTE: REMOVE THE SMALL METAL SPACER FROM THE GANGING STRAP. THE WASHER, METAL SPACER, AND MOUNTING SCREW INCLUDED IN THE KIT ARE NOT NEEDED.

STEP 01

CAREFULLY TURN THE SEAT/OTTOMAN ON ITS SIDE.

UNSCREW THE GLIDE FROM THE SEAT/OTTOMAN. PUSH GLIDE STEM THROUGH THE HOLE OF THE GANGING STRAP MAKING SURE THAT THE "THIS SIDE UP" LABEL IS FACING UP. SCREW GLIDE BACK ON THE SEAT/OTTOMAN.

REPEAT UNTIL THE DESIRED AMOUNT OF GANGING STRAPS ARE ATTACHED TO THE SEAT/OTTOMAN.

CLARETTE GANGING ASSEMBLY

STEP 02

REPEAT STEP 1 ON ALL SEATS/OTTOMANS THAT ARE TO BE GANGED.

TO USE THE GANGING STRAPS, MOVE THE SEATS/OTTOMANS INTO POSITION NEXT TO EACH OTHER. SEATS/OTTOMANS MUST BE POSITIONED SO THE STRAPS ON ONE SEAT/OTTOMAN CAN REACH THE ATTACHMENT POINTS OF THE STRAPS ON ANY ADJACENT SEAT/OTTOMAN. TURN STRAPS TOWARDS EACH OTHER AND FIRMLY PRESS VELCRO ENDS TOGETHER.

WHEN GANGING STRAPS ARE NOT IN USE, SIMPLY ROTATE THEM OUT OF VIEW UNDER THE SEAT/OTTOMAN.
