

HOBSEN LOUNGE COLLECTION DESIGN PERSPECTIVE

Rich design and exquisite craftsmanship combine to create this boutique chair and coordinating ottoman. Hobsen reinvents the concept of lounge seating by delivering a solution that balances elegant artistry with timeless form. The wooden, handcrafted arms feature an organic curve that envelops the user. Stunning, exposed finger joints featured on the sides and the back rival its gorgeous, tailored front. Tapered legs accentuate Hobson's graceful curves. Viewed from any angle, it is a masterpiece.

“Mid-century with Danish influence, the Hobsen lounge and ottoman showcase the elegance of solid wood craftsmanship and joinery, celebrating the natural characteristics and beauty of wood.”
