

WEITZ IMPROMPTU STOOL DESIGN PERSPECTIVE

With a minimalist design, Weitz delivers incredible results. Perfect for any sit to stand application, this impromptu stool easily achieves any elevation from worksurface to bar height. Its pivoting base offers 360° access and accommodates alternative seating postures and positions. Ideal for locations that welcome sitting and standing, or for environments that need active sitting solutions, Weitz encourages flexibility allowing users to stay engaged.

“Weitz stools make it easy to move around while sitting or perching. It promotes active sitting by naturally tilting based upon your movement. The intuitive, aesthetically pleasing leather band engages the gas lift activator to seamlessly adjust the users’ seat height, helping them stay productive at their workstation, classroom, or in a collaborative environment.”
