

WELI SEATING COLLECTION DESIGN PERSPECTIVE

The Weli seating collection focuses on supporting the people who heal, learn, discover, and aid everyday activities in healthcare settings. Weli's broad range of solutions accommodates diverse physical needs and social preferences. Guest chairs feature varied seat dimensions to ensure comfort for a wide range of users. Rocker, lounge, patient chair, and easy access seating solutions create supportive and comfortable options for all that visit healthcare spaces. Outfit an entire facility with Weli's comprehensive solutions to develop a visually cohesive and inviting environment that encourages personal interactions.

“Our intent behind bringing this robust healthcare seating and tables collection to market was to focus on providing solutions for spaces that require strength and durability, without sacrificing design. Weli offers a union of strong, structural steel frames with slim, beautiful curves, making it a functional and elegant solution. To satisfy a wide variety of requirements, we included all of the healthcare necessities: wall saver leg design, clean out on all guest, patient, and lounge seating, multiple arm cap options to aid in ingress/egress of the seating, and tables in solid surface and laminate. By adding new, warmer powder coat colors to the metal frames, Weli will bring a sense of warmth and comfort into any healthcare setting.”
