WORK. STORE. DIVIDE.

# LOCHLYN ESTABLISHES SPACE DIVISION WHILE DISPLAYING INSPIRATION.

Environments today need to address open plan, accommodate private spaces, provide an atmosphere that creates a home-like feeling, and showcase personality. That's quite an accomplishment, but Lochlyn does it all. This innovative collection features a metal frame design that can be built small in stature or grand in size, depending on the users' space division needs. With the capacity to accept cubbies with open top, open front, or pass through abilities, along with trays and shelves, feel free to add biophilia, décor, and resource materials to transform any space.
