

TASK SEATING

NATIONAL®

TASK SEATING SOLUTIONS TO FIT ALL.

NATIONAL MAKES IT PERSONAL.

Task seating is more than just a chair to sit in. It is an extension of your personality. It embodies your identity and showcases your preferences. It is tailored to fit your body and support your functionality. Whether you use your task seating every day all day, or you sporadically sit, your chair selection needs to meet your specific needs for ergonomics, activity, budget, and style.

VORA.

Its distinct woven mesh pattern makes Vora stand out in a crowd. With a sleek black frame and grey or black mesh back, Vora task seating and stools easily integrate into any environment. Vora is available with height adjustable arms and also in armless models for situations that require a quick huddle or when space is limited. Task seating models offer a swivel tilt mechanism or knee tilt while stool models feature swivel control providing adjustment and support. Its flexibility makes this task seating series a simple go-to when time and budget are tight.

FIERCE.

Fierce brings value and speed when you need task solutions quickly! Its black mesh seat and back allow air to circulate naturally between the body and the chair back, keeping you cool while reducing hot spots. The synchro tilt weight balance control, seat slide, and back locking mechanism provide flexibility and customizable comfort. Available to ship within 48 hours, its short lead time and ergonomic benefits equal great value for any task situation.

WHIRL.

When style and comfort are on the top of your list, Whirl task seating and stools are right for your situation. Available in 6 different mesh back colors, Whirl's all black frame creates a perfect canvas to show your style. Its adjustable lumbar support and optional headrest make it even more appealing by offering comfort that can be modified to suit the user. Available in armless or with static arms, height adjustable arms, or arm caps that pivot for width and depth adjustments, Whirl offers solutions that fit the masses. Its synchro tilt, tilt tension adjustment, and lock positions allow the user to adjust the backrest, back tension, and seat pan to fit their specific needs. This range of ergonomic options makes Whirl the perfect solution for task intensive areas.

LAUDIO.

Not only does Laudio provide an elegant task seating option with sleek lines, its features were designed with comfort in mind. Available in 6 colors, the mesh back provides breathability and conforms to support the user. Its height adjustability mechanism, synchro tilt feature, and locking back allow the user to adjust Laudio to fit their height and chair recline preferences to maximize productivity and comfort. The optional seat slide, headrest, and adjustable arms offer even more ergonomic customization. Available with arms or armless, it fits a variety of spaces and user needs. By balancing a light-scale aesthetic and well-engineered features, Laudio supports all of your workspace needs.

LAVORO.

Lavoro merges comfort, design, and functionality for today's ever-evolving workspaces. Its mesh and upholstered back options give you design freedom in height and style, as well as price. The synchro tilt mechanism paired with its infinite lock and seat slide options give Lavoro extreme ergonomic support. The synchro tilt allows the user to recline for comfort without impacting the level of their eyesight and the infinite lock feature locks the perfect position into place. Sleek conference arms are streamlined and pleasantly inviting. Height adjustable arms are precise in movement and add functionality. Static arms and armless versions offer subtle curves and simple flowing lines. Lavoro also offers complementary task stools and guest seating. Simply put, Lavoro fits all of your needs.

MIX-IT.

Ergonomically designed and ideal for all work styles, Mix-it's comprehensive offering is a perfect fit for areas where people collaborate, learn, interact, and focus. Available in mesh or upholstered back, Mix-it offers a variety of adjustable and static arms, including armless models, to accommodate any task. The mesh back features an optional lumbar support, adding even more ergonomic support and adjustment. With synchronous tilt and knee tilt options, the user has full adjustment capabilities and can create custom back tension for superb comfort. Its back lock feature allows the user to find the perfect angle of recline and lock it into place. The Mix-it seating collection also includes guest seating and stools, allowing you to create a cohesive environment. Fill training rooms, meeting spaces, open plan areas, or private offices with the versatility of Mix-it.

FUEL SPECIALTY.

When you need a specific chair to support unique needs, Fuel's intensive use and large and tall models are the right solution. The intensive use models were designed and built for heavy-duty, 24/7 applications such as call centers, air traffic controllers, police departments, hospitals, and emergency rooms. The large and tall models feature an oversized seat and back that create a comfortable experience throughout the day for users of all shapes and sizes.

Both styles feature a reinforced aluminum base that accommodates continued use and additional weight. Fuel specialty models are available with a static loop arm or armless version, creating design flexibility. The synchronous tilt control mechanism minimizes seat pan rise as the user tilts back, giving you the ability to keep your vision aligned straight ahead. The back can be locked, creating ultimate comfort and range of motion. Sweeping contours and comfortable support create the foundation for this specialty solution.
