

# TESSERA CASEGOODS COLLECTION

## DESIGN PERSPECTIVE

National's internal design team partnered with Gary Bacon of Synergy Associates to design and develop Tessler. Together, they collaborated to create a comprehensive line that is centered around a clean, classic look with unique storage solutions. Tessler's extensive offering includes casegoods, storage, desks, and occasional tables. In addition, Tessler also offers meeting tables and benches. Designed to add sophistication to any space from executive office spaces to meeting areas, Tessler's sleek lines deliver a stunning aesthetic.

"We wanted a product that gave users unique storage solutions that were tailored to them, but also gave them a beautiful space to work. Function and beauty should go hand in hand, and with Tessler, they do. We didn't sacrifice one for the other. We didn't want the user to have to give up storage or compromise on the functionality they needed to achieve the aesthetic they wanted."
