

# WaveWorks<sup>®</sup> Metal

CASEGOODS

NATIONAL<sup>®</sup>

# Metal solutions that are as attractive and versatile as they are durable.

WaveWorks metal solutions are designed for intense environments or spaces that simply crave the look of metal. For high-traffic settings that require added durability such as administrative work areas, schools, manufacturing facilities, warehouses, and police stations, WaveWorks delivers longevity, functionality, and beauty. With a vast offering of metal paint solutions and laminates, and a wide selection of storage units and worksurface sizes, WaveWorks is sturdy, sleek, and ready to furnish any environment.

# Create functional spaces that impress.

Choose from a variety of WaveWorks metal storage solutions to design configurations that work for specific needs. Design office spaces with metal desks and storage components or utilize freestanding solutions, such as lateral files, bookcases, and cabinets to deliver useful storage and divide space or create privacy for users.

Worksurfaces and storage units can be attached to our Exhibit wall rail solution, maximizing the wall surface and further demonstrating WaveWorks' flexibility. Exhibit allows WaveWorks worksurfaces and storage to be positioned anywhere along the rail. Tackable and markerboard inserts, along with the Exhibit rail, can be field-scribed to create a custom fit without the additional expense of millwork.
