

Fringe®

LOUNGE COLLECTION

NATIONAL®

Create extraordinary spaces.

Whether it's a welcoming lobby space, an open collaboration area, or a huddle zone for private interactions, the Fringe collection offers seating and table solutions that can be combined to accommodate it all. From club chairs, benches, high and mid backs, and cove units, to occasional, inline, and bistro tables, Fringe has an extensive and diverse offering.

Beauty and function.

The Fringe lounge collection offers seating and table solutions that can be combined to create large configurations, cozy banquettes, or individual stations. Its extreme flexibility combined with smart design features make Fringe applicable for commercial spaces, community areas, learning environments, and clinical settings.

The clean out option provides a horizontal space between the back and seat, creating an easy and simple cleaning solution for healthcare, education, or workplace environments. This visible gap allows for thorough and efficient cleaning.

Fringe easily creates spaces that accommodate evolving needs. From open areas designed to spark collaboration and interaction to quiet nooks for individual focus or respite, Fringe is flexible and comfortable, while offering visual and acoustical privacy. The Fringe collection offers a robust mix of upholstery, metal, veneer, laminate, and solid surface materials that harmoniously balance the need for sophistication and functionality. Utilize Fringe's portfolio of options to create the right solution for any space with legs or plinth base, straight runs or serpentine configurations, and even built in power capabilities.

With innovative design and exceptional comfort, Fringe was designed to support a variety of settings. From informal areas to gather, interact, or touch down, to designated spaces for learning or collaborating, Fringe allows facilities to create spaces where people want to be. The bistro table option accommodates tiered seating and creates a workspace or a spot for impromptu meetings. Curved pieces create an organic and welcoming configuration that can be used nearly anywhere. Fringe is more than just lounge furniture, it's a flexible solution with a unique balance of beauty and functionality.

The Fringe collection offers a robust statement of line that can be utilized for any environment. With modular and freestanding solutions from single-seat to multi-person, Fringe easily creates everything from individual vignettes to large, open plan configurations.
