

Whirl®

When style and comfort are on the top of your list, Whirl task seating, guest chairs, and stools are right for your situation. Available in 6 different mesh back colors and a fully upholstered back, Whirl's all black frame creates a perfect canvas to show your style. With adjustable lumbar support and back height, as well as an optional headrest, Whirl can be modified to suit individual users. Available in armless or with static arms, height adjustable arms, conference arms, or arm caps that pivot for width and depth adjustments, Whirl offers solutions that fit the masses. Its synchro tilt, tilt tension adjustment, and lock positions allow the user to adjust the backrest, back tension, and seat pan to fit their specific needs. This range of ergonomic options makes Whirl the perfect solution for task intensive areas.

Control Mechanism + Functions

Synchronous Tilt Control Mechanism
In synchronous tilt, the backrest and seat pan of a chair recline at a different ratio. For every 2° of back recline, the seat angle tilts 1° (2:1 ratio) as you lean back. This minimizes the seat pan rise as you tilt.

Tilt Tension Function
Increase or decrease tension of chair's tilt to match your body weight. Proper tension should allow you to lean back easily while providing balanced support when reclining.

Seat Slide
Adjusts seat depth to a position that best accommodates length of legs. Reduces pressure behind thighs providing long-term comfort.

Arm Functions

Height Adjustable

Armrest Width

Armrest Depth

Armrest Pivot

Conference Arm

Lumbar Support

All models feature an adjustable lumbar
