ALPINE™

SOLID, DURABLE SUPPORT

Alpine assuredly steps up to the task in times of critical need in healthcare environments with durable construction and ergonomic support. A steel tubular frame provides solid, durable support when focus and decisions are imperative. Tandem and single models easily solve space planning, providing efficiency with flexible configurations.

The assurance of selecting the right furniture for the environment is ever-present in the Alpine collection. Its durable square tube steel frame supports patients and visitors for years with built in contoured backs for comfort and support. Space-saving efficient tandem and standalone guest models orchestrate traffic flow in waiting areas.
