Thought Starters

Ready for Movement

Combine height-adjustable worksurfaces with freestanding panels to provide privacy and flexibility.

Team Building

Utilize storage units between workstations to provide space division. This accommodates multiple users within the workspace, while supporting collaboration and focus.

Focus & Create

Footprint's extensive portfolio makes it easy to design environments that provide individual spaces within a larger configuration. This flexibility makes workstations feel personal and aids in productivity.

Meet & Greet

Footprint includes additional solutions that support even more spaces. The transaction counter is available in wood, laminate, or solid surface, and easily creates a welcoming and useful surface.
