Height Adjust & Power Beam

STAND ALONE, SET APART

Workplace design should address the need for privacy while offering the freedom to choose an individualized work mode. The versatile components of Xsede Height Adjust provide balance for an active style of work with a welcome aesthetic and functionality that fosters creativity, well-being and engagement.

CREATE, IDEATE & COLLABORATE

Benching can save space and bring teams closer without losing individual privacy. Divider screens allow you to have privacy, acoustic separation, and personalization to support your work style and requirements. Height-adjustable bases within the benching applications offer a wide range of flexibility for greater focus and productivity.

FLEXIBLE COLLABORATION

When placing teams in workspaces that facilitate collaboration, height-adjustable benching is the perfect solution. Single- or double-sided benching options provide even greater flexibility, with divider screens that provide the privacy, security and space individuals need. End panels complete the configuration bringing new life to the ordinary bench.

THOUGHT STARTERS

Divide & Conquer

Empower users to effortlessly construct the ideal workspace by combining privacy screens on the Power Beams with height-adjustable surfaces for focus, function and form.

Shape Your Space

Unite Power Beams with height-adjustable extended cove surfaces to create work areas that can be separated with storage units or lounge seating to shape the work environment as needed.

Extend & Enable

Worksurface extensions off the Power Beams provide a complete, technology-enabled solution. Attach overhead storage to the beam for a clean aesthetic that doesn't take up floor space.

Connection Points

Give collaborative team members a place to interact while still having full control of their work area. Power Beams enable complete connection at any angle of the space.

Personal & Versatile

Power Beams and privacy screens provide space division and worker autonomy to support people no matter their preferences or style of work.

Engaged Essentials

Height-adjustability, storage and complete connection provide the essentials you need to be creative, inspired and completely engaged.
