

BENCH ABOVE-SURFACE CABINET

Tools Required

- Cordless driver with magnetic post and following tips
 - # 2 Phillips Drive
 - M5 Hex Drive

Hardware Required (Included)

- 8— Panhead Phillips #8X 5/8" Wood Screws
- 4—Button Head Cap Screw M6-1 X 12mm

Installation

1. Unpack Cabinet and all hardware.
2. Locate the mounting bracket as shown in Figure A. Attach using Button Head Cap Screws.
3. The Cabinet can be oriented facing inward toward the bench or outward, away from it. Determine how the customer wishes to orient the Cabinet, flush the edge of the Cabinet's bottom panel with the edge of the bench worksurface and attach mounting bracket with provided wood screws.
