KOZMIC® POWER ENTRY AND ELECTRICAL KITS

POWER+DATA SOLUTIONS

POWER ENTRY

- Used to interface between Kozmic® grommets and building's electrical supply from a wall, floor, or column
- Hardwire or corded options; Hardwire model must be wired by a licensed electrician
- Must be ordered with electrical kits (sold separately); (1) power entry is necessary to power (1) or (1+) grommets
- Flexible metal conduit with hardwire pigtail or corded plug on one end and single squeeze-latch connector to attach to a power distribution assembly on opposite end
- Female connector; Mates to electrical kit connectors

SPECIFICATIONS

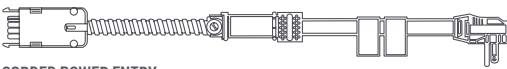

- Hardwire: 4 Wires, 2 circuits, 20 amps each (Circuit 1 and 2)
- Corded: 4' and 6' power cord; 3-prong grounded plug, 20 amp
- Circuit 1 (link up to 26 grommets)
- Circuit 2 (link up to 52 grommets)
- UL® listed as a manufactured wiring system

MODEL
