HELIO™

VISUAL MINIMALISM FOR MAXIMUM WELL-BEING

Greater exposure to natural light increases creativity, communication and happiness. That's why we've taken a different design approach with Helio. Rather than framing it to be a focal point, we've created that perfect balance of visual continuity and personal comfort. Blending harmoniously with its surroundings, Helio gives people unobstructed access to natural light, elevating their comfort and well-being.

WORK UNFRAMED

Capture the essence
of light and air. Guide the
flow of positive energy.

COMFORTABLE BY DESIGN

Helio provides freedom of movement with adjustable comfort that is seamlessly integrated to eliminate visual disruption. The back is constructed with durable, cross-woven nylon that provides ergonomic lumbar support while maintaining its crisp, clean lines. Refined details such as contrast seat stitching and premium halo casters further elevate the level of sophistication offered within a light-scale design.
