All patterns are 54" wide. Dye lots may vary slightly from samples shown.

All patterns meet the flammability* requirements of California Technical Bulletin 117-2013, Section 1. UFAC - Class 1, and NFPA 260 - Class 1. Some patterns have been tested for other flammability specifications; please visit cfstinson.com for comprehensive test results.

* This term and any corresponding data refer to the typical performance in the test indicated and should not be construed to imply the behavior of this or any other material under actual fire conditions.

These patterns meet or exceed the ACT Performance standards for upholstery: 

◊ Multiple factors affect fabric durability and appearance retention, including end-user application and proper maintenance. Wyzenbeek results above 100,000 double rubs have not been shown to be an indicator of increased lifespan.

These patterns have achieved Greenguard Indoor Air Quality Certification.

facts™ Silver applies to Armature.

facts™ Gold applies to Drizzle.

Stinson Visit the Stinson See/Sample/Spec sample room at kimball.com. View all pre-approved Stinson patterns with their respective Kimball grades and order memo samples directly from the site.
